DOING BUSINESS 2019

Training for Reform

Economy Profile Luxembourg

Comparing Business Regulation
for Domestic Firms in **190** Economies

Economy Profile of Luxembourg

*Doing Business 2019 Indicators
(in order of appearance in the document)*

Starting a business	Procedures, time, cost and paid-in minimum capital to start a limited liability company
Dealing with construction permits	Procedures, time and cost to complete all formalities to build a warehouse and the quality control and safety mechanisms in the construction permitting system
Getting electricity	Procedures, time and cost to get connected to the electrical grid, and the reliability of the electricity supply and the transparency of tariffs
Registering property	Procedures, time and cost to transfer a property and the quality of the land administration system
Getting credit	Movable collateral laws and credit information systems
Protecting minority investors	Minority shareholders' rights in related-party transactions and in corporate governance
Paying taxes	Payments, time, total tax and contribution rate for a firm to comply with all tax regulations as well as post-filing processes
Trading across borders	Time and cost to export the product of comparative advantage and import auto parts
Enforcing contracts	Time and cost to resolve a commercial dispute and the quality of judicial processes
Resolving insolvency	Time, cost, outcome and recovery rate for a commercial insolvency and the strength of the legal framework for insolvency
Labor market regulation	Flexibility in employment regulation and aspects of job quality

About Doing Business

The *Doing Business* project provides objective measures of business regulations and their enforcement across 190 economies and selected cities at the subnational and regional level.

The *Doing Business* project, launched in 2002, looks at domestic small and medium-size companies and measures the regulations applying to them through their life cycle.

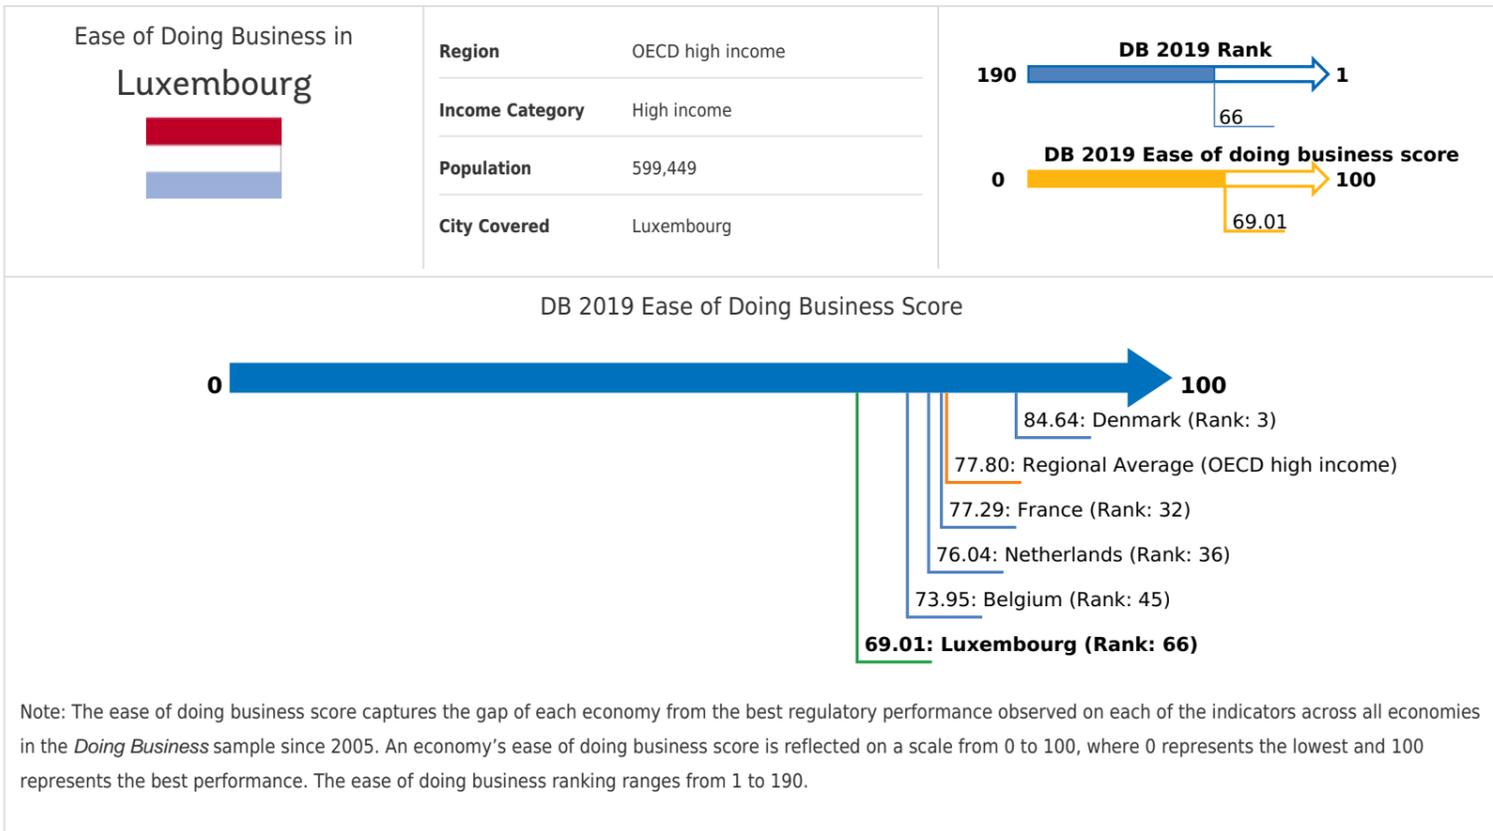

Doing Business captures several important dimensions of the regulatory environment as it applies to local firms. It provides quantitative indicators on regulation for starting a business, dealing with construction permits, getting electricity, registering property, getting credit, protecting minority investors, paying taxes, trading across borders, enforcing contracts and resolving insolvency. *Doing Business* also measures features of labor market regulation. Although *Doing Business* does not present rankings of economies on the labor market regulation indicators or include the topic in the aggregate ease of doing business score or ranking on the ease of doing business, it does present the data for these indicators.

By gathering and analyzing comprehensive quantitative data to compare business regulation environments across economies and over time, *Doing Business* encourages economies to compete towards more efficient regulation; offers measurable benchmarks for reform; and serves as a resource for academics, journalists, private sector researchers and others interested in the business climate of each economy.

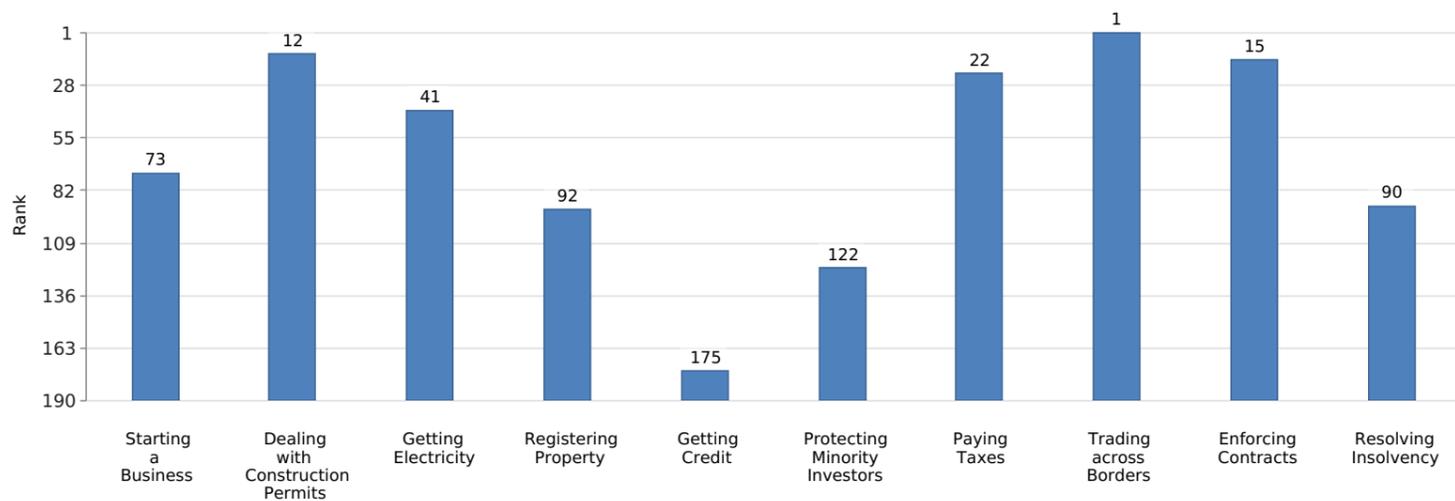

In addition, *Doing Business* offers detailed [subnational reports](#), which exhaustively cover business regulation and reform in different cities and regions within a nation. These reports provide data on the ease of doing business, rank each location, and recommend reforms to improve performance in each of the indicator areas. Selected cities can compare their business regulations with other cities in the economy or region and with the 190 economies that *Doing Business* has ranked.

The first *Doing Business* report, published in 2003, covered 5 indicator sets and 133 economies. This year's report covers 11 indicator sets and 190 economies. Most indicator sets refer to a case scenario in the largest business city of each economy, except for 11 economies that have a population of more than 100 million as of 2013 (Bangladesh, Brazil, China, India, Indonesia, Japan, Mexico, Nigeria, Pakistan, the Russian Federation and the United States) where *Doing Business* also collected data for the second largest business city. The data for these 11 economies are a population-weighted average for the 2 largest business cities. The project has benefited from feedback from governments, academics, practitioners and reviewers. The initial goal remains: to provide an objective basis for understanding and improving the regulatory environment for business around the world.

Rankings on Doing Business topics - Luxembourg

Ease of Doing Business Score on Doing Business topics - Luxembourg

Starting a Business

This topic measures the number of procedures, time, cost and paid-in minimum capital requirement for a small- to medium-sized limited liability company to start up and formally operate in each economy's largest business city.

To make the data comparable across 190 economies, *Doing Business* uses a standardized business that is 100% domestically owned, has start-up capital equivalent to 10 times the income per capita, engages in general industrial or commercial activities and employs between 10 and 50 people one month after the commencement of operations, all of whom are domestic nationals. Starting a Business considers two types of local limited liability companies that are identical in all aspects, except that one company is owned by 5 married women and the other by 5 married men. The ranking of economies on the ease of starting a business is determined by sorting their scores for starting a business. These scores are the simple average of the scores for each of the component indicators.

The most recent round of data collection for the project was completed in May 2018. [See the methodology for more information.](#)

What the indicators measure	Case study assumptions
<p>Procedures to legally start and formally operate a company (number)</p> <ul style="list-style-type: none"> • Preregistration (for example, name verification or reservation, notarization) • Registration in the economy's largest business city • Postregistration (for example, social security registration, company seal) • Obtaining approval from spouse to start a business or to leave the home to register the company • Obtaining any gender specific document for company registration and operation or national identification card <p>Time required to complete each procedure (calendar days)</p> <ul style="list-style-type: none"> • Does not include time spent gathering information • Each procedure starts on a separate day (2 procedures cannot start on the same day) • Procedures fully completed online are recorded as ½ day • Procedure is considered completed once final document is received • No prior contact with officials <p>Cost required to complete each procedure (% of income per capita)</p> <ul style="list-style-type: none"> • Official costs only, no bribes • No professional fees unless services required by law or commonly used in practice <p>Paid-in minimum capital (% of income per capita)</p> <ul style="list-style-type: none"> • Funds deposited in a bank or with third party before registration or up to 3 months after incorporation 	<p>To make the data comparable across economies, several assumptions about the business and the procedures are used. It is assumed that any required information is readily available and that the entrepreneur will pay no bribes.</p> <p>The business:</p> <ul style="list-style-type: none"> - Is a limited liability company (or its legal equivalent). If there is more than one type of limited liability company in the economy, the most common among domestic firms is chosen. Information on the most common form is obtained from incorporation lawyers or the statistical office. - Operates in the economy's largest business city. For 11 economies the data are also collected for the second largest business city. - The entire office space is approximately 929 square meters (10,000 square feet). - Is 100% domestically owned and has five owners, none of whom is a legal entity; has a start-up capital of 10 times income per capita and has a turnover of at least 100 times income per capita. - Performs general industrial or commercial activities, such as the production or sale of goods or services to the public. The business does not perform foreign trade activities and does not handle products subject to a special tax regime, for example, liquor or tobacco. It does not use heavily polluting production processes. - Leases the commercial plant or offices and is not a proprietor of real estate and the amount of the annual lease for the office space is equivalent to the income per capita. - Does not qualify for investment incentives or any special benefits. - Has at least 10 and up to 50 employees one month after the commencement of operations, all of whom are domestic nationals. - Has a company deed that is 10 pages long. <p>The owners:</p> <ul style="list-style-type: none"> - Have reached the legal age of majority. If there is no legal age of majority, they are assumed to be 30 years old. - Are sane, competent, in good health and have no criminal record. - Are married and the marriage is monogamous and registered with the authorities. - Where the answer differs according to the legal system applicable to the woman or man in question (as may be the case in economies where there is legal plurality), the answer used will be the one that applies to the majority of the population.

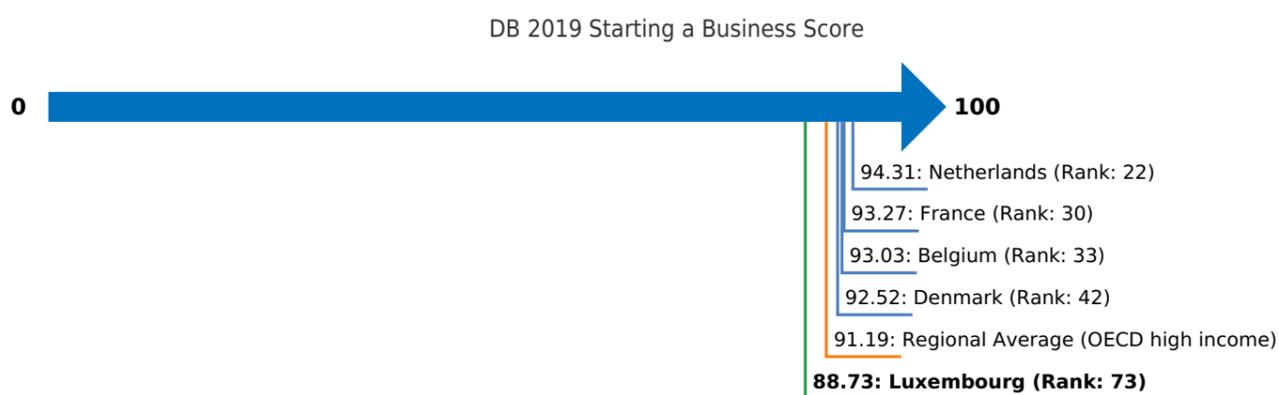

Starting a Business - Luxembourg

Standardized Company

Legal form	Société à Responsabilité Limitée (SARL)
Paid-in minimum capital requirement	EUR 12,000
City Covered	Luxembourg

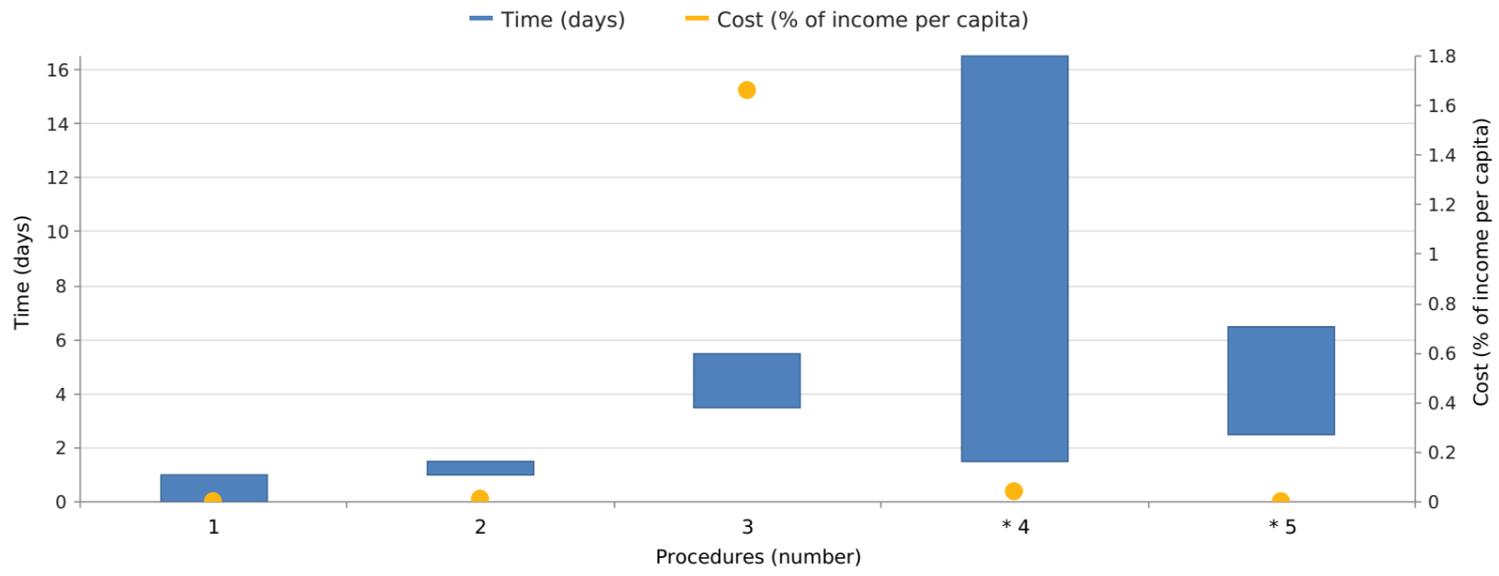

Indicator	Luxembourg	OECD high income	Best Regulatory Performance
Procedure - Men (number)	5	4.9	1 (New Zealand)
Time - Men (days)	16.5	9.3	0.5 (New Zealand)
Cost - Men (% of income per capita)	1.7	3.1	0.0 (Slovenia)
Procedure - Women (number)	5	4.9	1 (New Zealand)
Time - Women (days)	16.5	9.3	0.5 (New Zealand)
Cost - Women (% of income per capita)	1.7	3.1	0.0 (Slovenia)

Note: The ranking of economies on the ease of starting a business is determined by sorting their scores for starting a business. These scores are the simple average of the scores for each of the component indicators.

Figure - Starting a Business in Luxembourg - Procedure, Time and Cost

*This symbol is shown beside procedure numbers that take place simultaneously with the previous procedure.

Note: Online procedures account for 0.5 days in the total time calculation. For economies that have a different procedure list for men and women, the graph shows the time for women. For more information on methodology, see the *Doing Business* website (<http://doingbusiness.org/en/methodology>). For details on the procedures reflected here, see the summary below.

Details - Starting a Business in Luxembourg - Procedure, Time and Cost

No.	Procedures	Time to Complete	Associated Costs
1	<p>Deposit the minimum capital requirement <i>Agency</i> : Commercial Bank</p> <p>The promoters must open a bank account in the name of the company in formation and must transfer the amount of the share capital to this account before the passing of the deed of incorporation. For the purpose of the passing of the notarial deed, the bank will remit an escrow certificate (certificat de blocage) certifying that the funds corresponding to the amount of the share capital are "blocked" in the escrow account. The funds are automatically unblocked on delivery of a certified copy of the notarial deed of incorporation and the issue by the notary of the release certificate (certificat de débloccage).</p>	1 day	no charge
2	<p>Verify uniqueness of company name and reserve name <i>Agency</i> : Trade and Companies Registrar</p> <p>Shareholders are free to choose the company's name but must ensure that it is unique (https://www.rcsl.lu). Each person requesting the Trade and Companies Register to confirm the availability or non-availability of a company's name may select four types of documents to reflect the answer of the Trade and Companies Register.</p>	Less than one day (online procedure)	EUR 4.75 to EUR 10
3	<p>Notary drafts and notarizes the company deed <i>Agency</i> : Notary</p> <p>A private limited liability company must be incorporated before a Luxembourg notary public. The Luxembourg notary or lawyer draws up the deed of incorporation which includes the articles of association of the company. Model of articles of association may be found on Internet (the national Chamber of Commerce's One-stop shop information center can help incorporate to complete the model of documents). The Luxembourg notary is held by law to pay all the costs relating to the incorporation and registration of the company and which include, the notary fees EUR 450 (fee EUR 150 + sundry expenses EUR 200 + certified copies EUR 100); Company Register fees EUR 250; Publication in Official Gazette EUR 250; Sundries EUR 50. The notary must provide a detailed account/invoice once the company is incorporated.</p>	2 days	EUR 1,000+ EUR 75 fixed registration fee

⇒ 4	<p>Apply for business license</p> <p><i>Agency</i> : General Directorate for Small and Medium-Sized Businesses - Ministry of Economy</p> <p>This license/permit is issued by the Ministry of Middle Classes for a commercial activity or by the Ministry of Economy for industrial activities upon request and on proof of knowledge of business management.</p> <p>To apply for a business license, promoters must submit the following documents:</p> <ul style="list-style-type: none"> • Application form (completed and signed) for an establishment permit. • Tax stamp for EUR 24 EUR (This varies from EUR 24 to EUR 2,500, depending on the type of activity. 24 EUR refers to a sales/trade company). The amount can be transferred to the national Giro account (CCP) of the Registration and Domains Administration (Administration de l'Enregistrement et des Domaines): LU47 1111 0087 9262 0000, with the reference: "Office Fee for Establishment Permit [ENTER APPLICANT'S NAME]." In this case, proof of payment must be presented. The tax stamp can also be obtained from the One-stop shop information center. • For non-residents and persons residing in Luxembourg for fewer than 10 years, a recent notarized certificate of non-bankruptcy. • Articles of association (executed or draft) for a commercial company. • School certificates or professional diplomas (certified by the institution) required for the intended activity. Otherwise, proof of relevant professional experience such as an EU certificate or certificate of registration with a social security authority. • An affidavit on the exercise of any management posts previously held in Luxembourg, for verification of non-bankruptcy. • The applicant's identity card (copy). • The applicant's police record or affidavit. Note: This applies to non-residents and persons residing in Luxembourg for less than 10 years. In practice, the Ministry of the Economy and Foreign Trade tends however to request the provision of a police record or affidavit to every applicant although not required as such. <p>The business permit application can be submitted before executing the notary deed because the Ministry of the Economy checks the draft articles of association—the company name, business purpose, and identity of directors and officers for compliance with the provisions of the applicable law. Generally, the business license/establishment permit application and notary deed processes start more or less at the same time and are pursued simultaneously. Although the company incorporation process requires a notary, the founder may directly register the company with different administrations and obtain identification numbers and the business license/establishment permit.</p> <p>Since October 2011, business license requests can be handed in online at www.guichet.lu. The required documents are the same ones. They all need to be transformed into a PDF and attached to the online form. In order to be able to deposit the business license online, the applicant is required to have a LUXTRUST certificate in order to sign the application form electronically.</p>	15 days, (simultaneous with procedure 3)	EUR 24
⇒ 5	<p>Register at the one-stop shop</p> <p><i>Agency</i> : One stop shop Register</p> <p>The notary public must levy an initial payment for all applicable company incorporation fees and taxes, including registration costs. The notary must register (a) the articles of association with the tax administration (Administration de l'Enregistrement) at the Registry one-stop shop; and (b) the company with the Trade and Companies Register, within 4 weeks of the incorporation of the company. The Trade and Companies Register arranges for the publication of the incorporation deed in the Official Gazette within 2 months of the company's registration.</p> <p>Upon usually 24 hours within registration, the Trade and Companies Register generates an administrative or official (register) number that accompanies the company during its corporate life (matricule). This number forms the basis for all other identification numbers to be issued by the administration for direct taxes (tax number), the administration for indirect taxes (VAT number), or the social security service (pay-as-you-earn number and employer number). Applications can be filed for both VAT and social security at the one-stop shop, which distributes the forms to the relevant administrations. The company's registration with the Chamber of Commerce is done automatically.</p>	4 days, (simultaneous with procedure 4)	included in procedure 3

⇒ Takes place simultaneously with previous procedure.

Dealing with Construction Permits

This topic tracks the procedures, time and cost to build a warehouse—including obtaining necessary the licenses and permits, submitting all required notifications, requesting and receiving all necessary inspections and obtaining utility connections. In addition, the Dealing with Construction Permits indicator measures the building quality control index, evaluating the quality of building regulations, the strength of quality control and safety mechanisms, liability and insurance regimes, and professional certification requirements. The most recent round of data collection was completed in May 2018. [See the methodology for more information](#)

What the indicators measure

Procedures to legally build a warehouse (number)

- Submitting all relevant documents and obtaining all necessary clearances, licenses, permits and certificates
- Submitting all required notifications and receiving all necessary inspections
- Obtaining utility connections for water and sewerage
- Registering and selling the warehouse after its completion

Time required to complete each procedure (calendar days)

- Does not include time spent gathering information
- Each procedure starts on a separate day—though procedures that can be fully completed online are an exception to this rule
- Procedure is considered completed once final document is received
- No prior contact with officials

Cost required to complete each procedure (% of income per capita)

- Official costs only, no bribes

Building quality control index (0-15)

- Quality of building regulations (0-2)
- Quality control before construction (0-1)
- Quality control during construction (0-3)
- Quality control after construction (0-3)
- Liability and insurance regimes (0-2)
- Professional certifications (0-4)

Case study assumptions

To make the data comparable across economies, several assumptions about the construction company, the warehouse project and the utility connections are used.

The construction company (BuildCo):

- Is a limited liability company (or its legal equivalent) and operates in the economy's largest business city. For 11 economies the data are also collected for the second largest business city.
- Is 100% domestically and privately owned; has five owners, none of whom is a legal entity. Has a licensed architect and a licensed engineer, both registered with the local association of architects or engineers. BuildCo is not assumed to have any other employees who are technical or licensed experts, such as geological or topographical experts.
- Owns the land on which the warehouse will be built and will sell the warehouse upon its completion.

The warehouse:

- Will be used for general storage activities, such as storage of books or stationery.
- Will have two stories, both above ground, with a total constructed area of approximately 1,300.6 square meters (14,000 square feet). Each floor will be 3 meters (9 feet, 10 inches) high and will be located on a land plot of approximately 929 square meters (10,000 square feet) that is 100% owned by BuildCo, and the warehouse is valued at 50 times income per capita.
- Will have complete architectural and technical plans prepared by a licensed architect. If preparation of the plans requires such steps as obtaining further documentation or getting prior approvals from external agencies, these are counted as procedures.
- Will take 30 weeks to construct (excluding all delays due to administrative and regulatory requirements).

The water and sewerage connections:

- Will be 150 meters (492 feet) from the existing water source and sewer tap. If there is no water delivery infrastructure in the economy, a borehole will be dug. If there is no sewerage infrastructure, a septic tank in the smallest size available will be installed or built.
- Will have an average water use of 662 liters (175 gallons) a day and an average wastewater flow of 568 liters (150 gallons) a day. Will have a peak water use of 1,325 liters (350 gallons) a day and a peak wastewater flow of 1,136 liters (300 gallons) a day.
- Will have a constant level of water demand and wastewater flow throughout the year; will be 1 inch in diameter for the water connection and 4 inches in diameter for the sewerage connection.

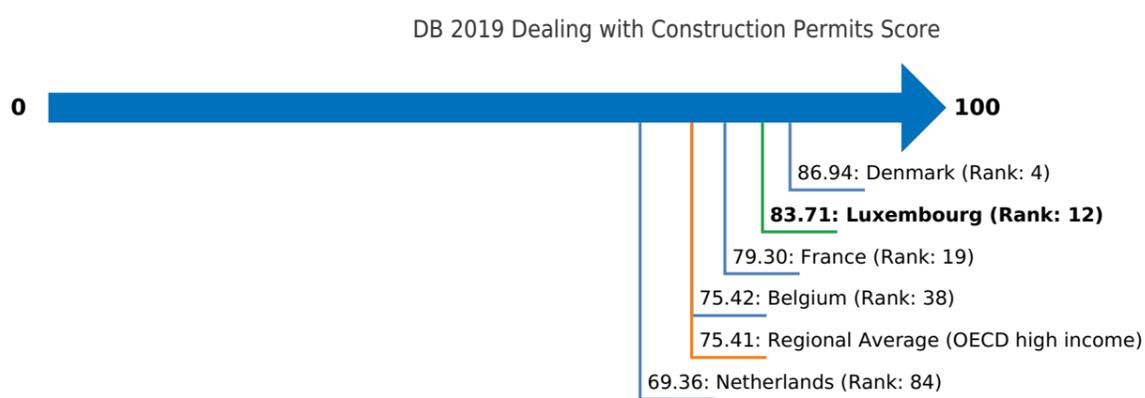

Dealing with Construction Permits - Luxembourg

Standardized Warehouse

Estimated value of warehouse	EUR 3,236,766.10
City Covered	Luxembourg

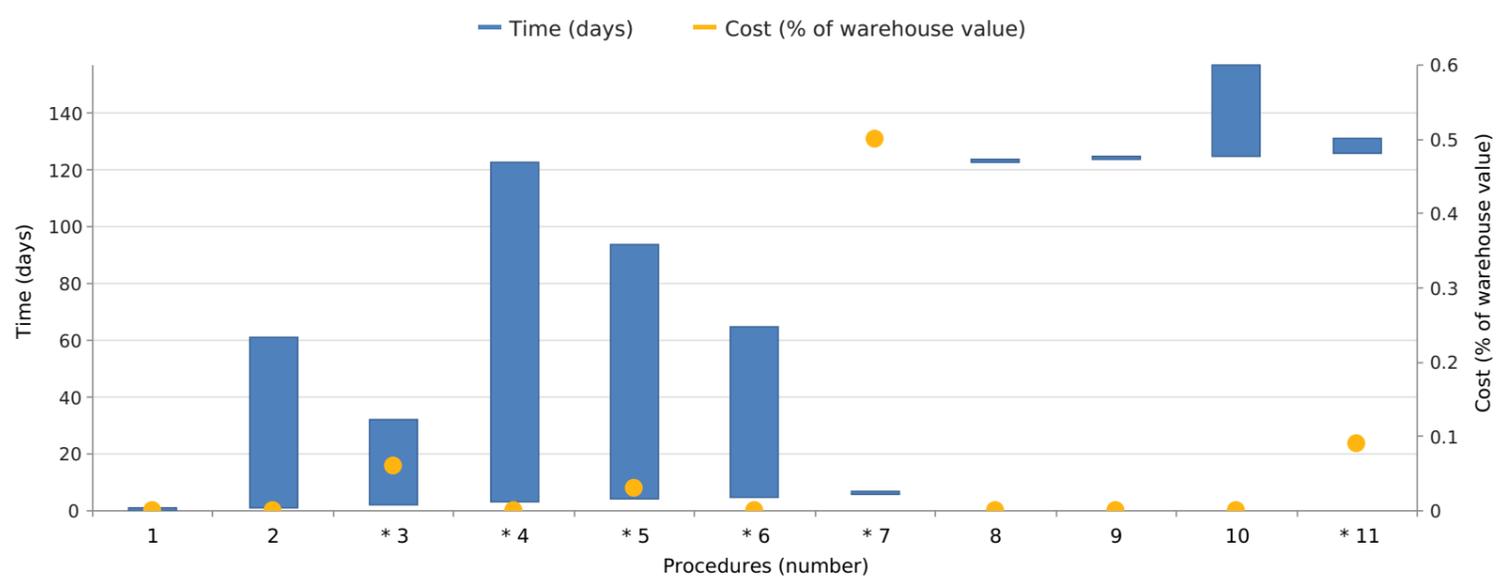

Indicator	Luxembourg	OECD high income	Best Regulatory Performance
Procedures (number)	11	12.7	None in 2017/18
Time (days)	157	153.1	None in 2017/18
Cost (% of warehouse value)	0.7	1.5	None in 2017/18
Building quality control index (0-15)	15.0	11.5	15.0 (3 Economies)

Figure - Dealing with Construction Permits in Luxembourg and comparator economies - Ranking and Score

Note: The ranking of economies on the ease of dealing with construction permits is determined by sorting their scores for dealing with construction permits. These scores are the simple average of the scores for each of the component indicators.

Figure - Dealing with Construction Permits in Luxembourg and comparator economies - Measure of Quality

Details - Dealing with Construction Permits in Luxembourg - Procedure, Time and Cost

No.	Procedures	Time to Complete	Associated Costs
1	<p>Obtain a recent copy of the cadastre plans from the Cadastre Administration Agency : Cadastre Administration</p>	1 day	EUR 10
2	<p>Obtain approval in principle (accord de principe) Agency : Urban Department, Commune An application for authorization and declaration of work, an agreement is required for any building with a total built area of more than 2,000 cubic meters. This agreement is valid for a period of 12 months. The final request must be submitted within the deadline.</p>	60 days	EUR 60
⇒ 3	<p>Obtain feasibility study for the sewage (canalization) connection Agency : Sewage Department, Commune BuildCo applies for a sewage connection online. The following plans and documents must be attached in duplicate: (i) an extract of the cadastral map (ii) the location map of the land and any building or structure (or erect), scale 1:500 (iii) plans for all levels of the building, scale 1:100 or 1:50 (iv) Construction cuts along the plan of the connecting line, scale 1:100 or 1:50, indicating the location of the network and the level of public sewers The construction permit is valid only if a sewage connection authorization has been granted.</p>	30 days	EUR 1,950
⇒ 4	<p>Obtain commodo/incommodo classe 3 approval from the Ministry of Environment Agency : Ministry of Environment An environmental clearance is required if the warehouse will be used for storing greater than 10 tons but less than or equivalent to 100 tons.</p>	120 days	no charge
⇒ 5	<p>Obtain construction permit from the Urban Department (service de l'urbanisme) of the Commune Agency : Urban Department, Commune The building plans must conform to the master plan of the city of Luxembourg. The application file comprises an application form, a cadastral extract, and the building design plans. Various departments within the Commune must approve the application, including all the utility and the fire safety departments. The Commune charges EUR 24 as an application processing fee and EUR 0.24 per cubic meter. If after 12 months construction has not started, the permit will be nullified.</p>	90 days	EUR 960
⇒ 6	<p>Obtain excavation permit from the Ministry of Public Works Agency : Ministry of Public Works Assuming the warehouse will be built near a main road, BuildCo must obtain an excavation permit to dig for utility connections. The Ministry of Public Works charges a stamp duty of EUR 10.</p>	60 days	EUR 10
⇒ 7	<p>Hire independent surveillance company to carry out inspections of construction works Agency : Independent Surveillance Company BuildCo must hire an independent inspection company to perform inspections during construction, which costs about 0.5% of the construction value.</p>	1 day	EUR 16,184

8	Request and receive inspection of completed works from the Urban Department <i>Agency</i> : Urban Department, Commune According to Article 66 of the Building Code, an application must be made to the Police des Batisses once the major construction work is completed. The authorization shall be deemed received if within three weeks after the formulation of the relevant application, "La police des batisses" has not raised any objections in writing. Without this authorization, no internal works can be completed.	1 day	no charge
9	Request and receive sewage (canalization) inspection <i>Agency</i> : Sewage Department, Commune BuildCo applies for a sewerage connection and requests water services from the Commune in order to prepare an estimate for all the costs associated with the sewerage connection.	1 day	no charge
10	Obtain sewage (canalization) connection <i>Agency</i> : Sewage Department, Commune	32 days	no charge
⇒ 11	Obtain water connection <i>Agency</i> : Water Services Department, Commune	5 days	EUR 3,000

⇒ Takes place simultaneously with previous procedure.

Details - Dealing with Construction Permits in Luxembourg - Measure of Quality

	Answer	Score
Building quality control index (0-15)		15.0
Quality of building regulations index (0-2)		2.0
How accessible are building laws and regulations in your economy? (0-1)	Available online; Free of charge.	1.0
Which requirements for obtaining a building permit are clearly specified in the building regulations or on any accessible website, brochure or pamphlet? (0-1)	List of required documents; Fees to be paid; Required preapprovals.	1.0
Quality control before construction index (0-1)		1.0
Which third-party entities are required by law to verify that the building plans are in compliance with existing building regulations? (0-1)	Licensed architect; Licensed engineer.	1.0
Quality control during construction index (0-3)		3.0
What types of inspections (if any) are required by law to be carried out during construction? (0-2)	Inspections by external engineer or firm; Risk-based inspections.	2.0
Do legally mandated inspections occur in practice during construction? (0-1)	Mandatory inspections are always done in practice.	1.0
Quality control after construction index (0-3)		3.0
Is there a final inspection required by law to verify that the building was built in accordance with the approved plans and regulations? (0-2)	Yes, final inspection is done by government agency; Yes, external engineer submits report for final inspection.	2.0
Do legally mandated final inspections occur in practice? (0-1)	Final inspection always occurs in practice.	1.0
Liability and insurance regimes index (0-2)		2.0
Which parties (if any) are held liable by law for structural flaws or problems in the building once it is in use (Latent Defect Liability or Decennial Liability)? (0-1)	Architect or engineer; Professional in charge of the supervision; Construction company.	1.0
Which parties (if any) are required by law to obtain an insurance policy to cover possible structural flaws or problems in the building once it is in use (Latent Defect Liability Insurance or Decennial Insurance)? (0-1)	Architect or engineer.	1.0
Professional certifications index (0-4)		4.0
What are the qualification requirements for the professional responsible for verifying that the architectural plans or drawings are in compliance with existing building regulations? (0-2)	Minimum number of years of experience; University degree in architecture or engineering; Being a registered architect or engineer.	2.0

What are the qualification requirements for the professional who supervises the construction on the ground? (0-2)

Minimum number of years of experience; 2.0
University degree in engineering, construction or construction management;
Being a registered architect or engineer.

⚡ Getting Electricity

This topic measures the procedures, time and cost required for a business to obtain a permanent electricity connection for a newly constructed warehouse. Additionally, the reliability of supply and transparency of tariffs index measures reliability of supply, transparency of tariffs and the price of electricity. The most recent round of data collection for the project was completed in May 2018. [See the methodology for more information.](#)

What the indicators measure

Procedures to obtain an electricity connection (number)

- Submitting all relevant documents and obtaining all necessary clearances and permits
- Completing all required notifications and receiving all necessary inspections
- Obtaining external installation works and possibly purchasing material for these works
- Concluding any necessary supply contract and obtaining final supply

Time required to complete each procedure (calendar days)

- Is at least 1 calendar day
- Each procedure starts on a separate day
- Does not include time spent gathering information
- Reflects the time spent in practice, with little follow-up and no prior contact with officials

Cost required to complete each procedure (% of income per capita)

- Official costs only, no bribes
- Value added tax excluded

The reliability of supply and transparency of tariffs index (0-8)

- Duration and frequency of power outages (0-3)
- Tools to monitor power outages (0-1)
- Tools to restore power supply (0-1)
- Regulatory monitoring of utilities' performance (0-1)
- Financial deterrents limiting outages (0-1)
- Transparency and accessibility of tariffs (0-1)

Price of electricity (cents per kilowatt-hour)*

- Price based on monthly bill for commercial warehouse in case study

*Note: *Doing Business* measures the price of electricity, but it is not included in the ease of doing business score nor the ranking on the ease of getting electricity.

Case study assumptions

To make the data comparable across economies, several assumptions about the warehouse, the electricity connection and the monthly consumption are used.

The warehouse:

- Is owned by a local entrepreneur and is used for storage of goods.
- Is located in the economy's largest business city. For 11 economies the data are also collected for the second largest business city.
- Is located in an area where similar warehouses are typically located and is in an area with no physical constraints. For example, the property is not near a railway.
- Is a new construction and is being connected to electricity for the first time.
- Has two stories with a total surface area of approximately 1,300.6 square meters (14,000 square feet). The plot of land on which it is built is 929 square meters (10,000 square feet).

The electricity connection:

- Is a permanent one with a three-phase, four-wire Y connection with a subscribed capacity of 140-kilo-volt-ampere (kVA) with a power factor of 1, when 1 kVA = 1 kilowatt (kW).
- Has a length of 150 meters. The connection is to either the low- or medium-voltage distribution network and is either overhead or underground, whichever is more common in the area where the warehouse is located and requires works that involve the crossing of a 10-meter road (such as by excavation or overhead lines) but are all carried out on public land. There is no crossing of other owners' private property because the warehouse has access to a road.
- Does not require work to install the internal wiring of the warehouse. This has already been completed up to and including the customer's service panel or switchboard and the meter base.

The monthly consumption:

- It is assumed that the warehouse operates 30 days a month from 9:00 a.m. to 5:00 p.m. (8 hours a day), with equipment utilized at 80% of capacity on average and that there are no electricity cuts (assumed for simplicity reasons) and the monthly energy consumption is 26,880 kilowatt-hours (kWh); hourly consumption is 112 kWh.
- If multiple electricity suppliers exist, the warehouse is served by the cheapest supplier.
- Tariffs effective in January of the current year are used for calculation of the price of electricity for the warehouse. Although January has 31 days, for calculation purposes only 30 days are used.

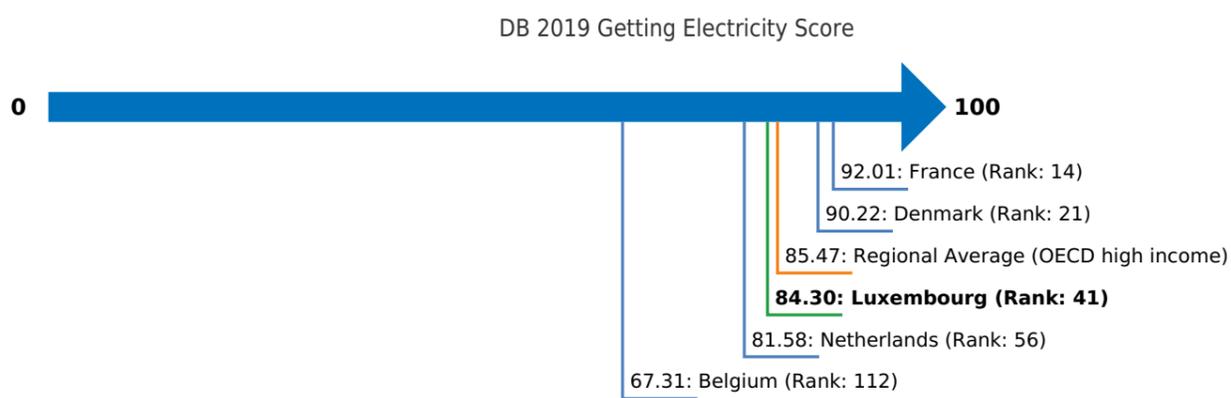

Getting Electricity - Luxembourg

Standardized Connection

Price of electricity (US cents per kWh)	10.6
Name of utility	Creos Luxembourg S.A.
City Covered	Luxembourg

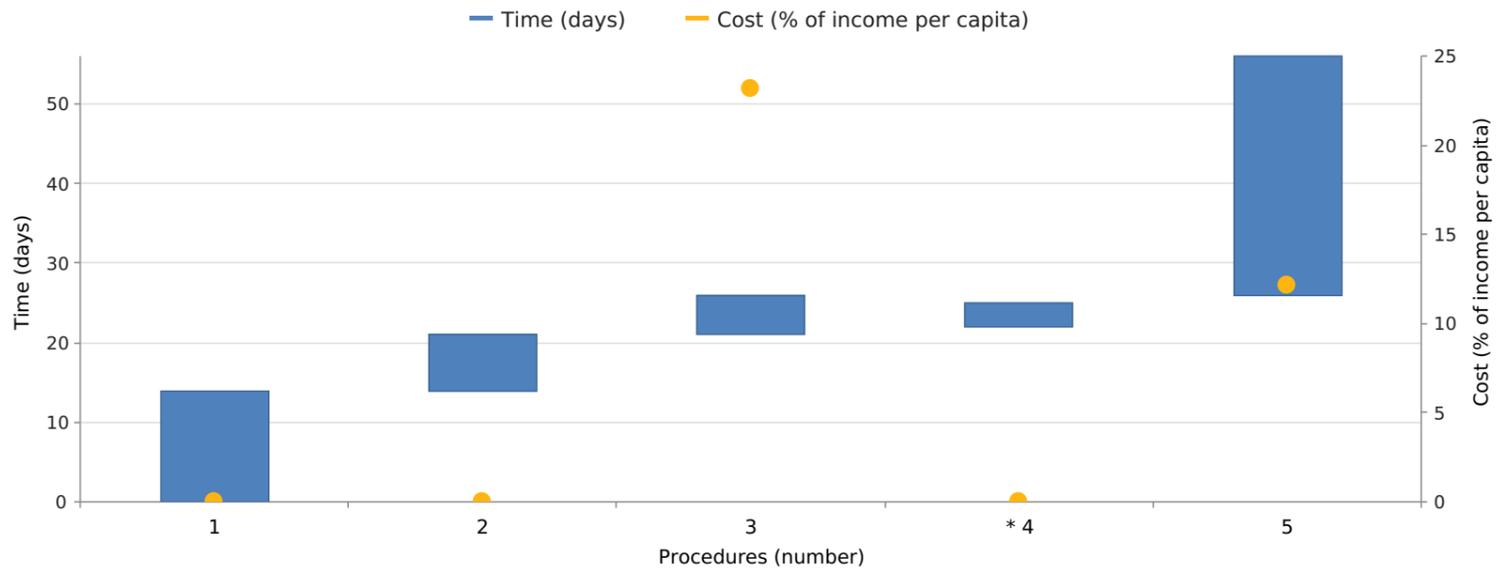

Indicator	Luxembourg	OECD high income	Best Regulatory Performance
Procedures (number)	5	4.5	3 (25 Economies)
Time (days)	56	77.2	18 (3 Economies)
Cost (% of income per capita)	35.3	64.2	0.0 (3 Economies)
Reliability of supply and transparency of tariff index (0-8)	7	7.5	8.0 (27 Economies)

Figure - Getting Electricity in Luxembourg and comparator economies - Ranking and Score

Note: The ranking of economies on the ease of getting electricity is determined by sorting their scores for getting electricity. These scores are the simple average of the scores for all the component indicators except the price of electricity.

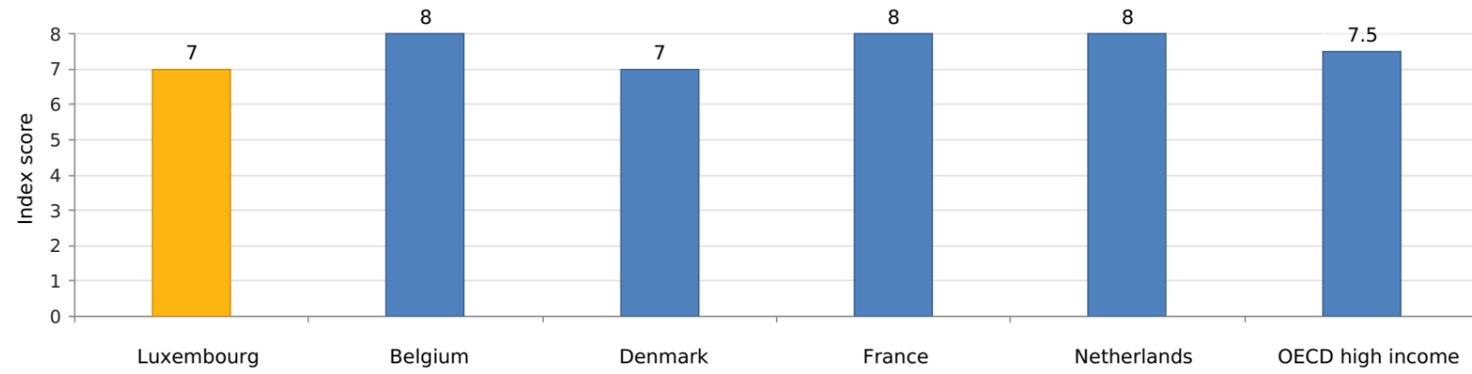

Figure - Getting Electricity in Luxembourg - Procedure, Time and Cost

*This symbol is shown beside procedure numbers that take place simultaneously with the previous procedure.

Note: Online procedures account for 0.5 days in the total time calculation. For economies that have a different procedure list for men and women, the graph shows the time for women. For more information on methodology, see the *Doing Business* website (<http://doingbusiness.org/en/methodology>). For details on the procedures reflected here, see the summary below.

No.	Procedures	Time to Complete	Associated Costs
1	<p>Submit application to Creos Luxembourg and await connection conditions <i>Agency</i> : Creos Luxembourg S.A. The client submits an application along with a cadastre map and a sketch of the building.</p> <p>Upon receiving the application, Creos Luxembourg S.A. will prepare the technical conditions for connecting the client's premises to the grid. It will send the client an offer along with an order confirmation and an authorization for the client's electrical contractor to fill out.</p> <p>The offer is valid for 6 months. It includes all aspects of the connection works, except for the excavation works and repairing of the road, which the customer will be responsible for.</p>	14 calendar days	EUR 0
2	<p>Accept offer and sign connection and network usage contracts <i>Agency</i> : Creos Luxembourg S.A. The client accepts the offer and estimate of fees provided by the utility. The utility will then request an excavation permit from the local road authorities (Administration des Ponts et Chaussées) and in parallel, will draft a connection agreement and a contract of usage of network. The client will sign both contracts and send them back to Creos.</p>	7 calendar days	EUR 0
3	<p>Await completion of excavation works by contractor <i>Agency</i> : Client's contractor The client will be in charge of excavating the road crossing. They will also be responsible for repairing the road once Creos has laid down the cable.</p> <p>The client's contractor will also need to fill out the authorization provided by Creos confirming he has completed the works according to the agreed conditions.</p>	5 calendar days	EUR 15,000
⇒ 4	<p>Sign supply contract with electricity supplier <i>Agency</i> : Electricity supplier on the free market For electricity to be provided, it is necessary to have a supply contract with a supplier. The network manager and provider functions are separated in Luxembourg (based on European law) and Creos does not act as a supplier. The customer therefore needs to sign a contract with a supplier of his choice on the market as soon as he has enough technical details of its consumption. If he does not do so before the final consumption, a default provider will automatically be designated by the regulatory body. The client will still be able to change suppliers at no extra costs thereafter.</p>	3 calendar days	EUR 0
5	<p>Await completion of external works and final connection by Creos Luxembourg <i>Agency</i> : Creos Luxembourg S.A. Creos will then inspect the contractor's internal installation as well as the road opening. Upon satisfactory inspection, it will lay down the low-voltage cable to connect the client's premises to the grid and install the meter.</p>	30 calendar days	EUR 7,860

⇒ Takes place simultaneously with previous procedure.

Details - Getting Electricity in Luxembourg - Measure of Quality

	Answer
Reliability of supply and transparency of tariff index (0-8)	7
Total duration and frequency of outages per customer a year (0-3)	3
System average interruption duration index (SAIDI)	0.3
System average interruption frequency index (SAIFI)	0.3
What is the minimum outage time (in minutes) that the utility considers for the calculation of SAIDI/SAIFI	0.1
Mechanisms for monitoring outages (0-1)	1
Does the distribution utility use automated tools to monitor outages?	Yes
Mechanisms for restoring service (0-1)	1
Does the distribution utility use automated tools to restore service?	Yes
Regulatory monitoring (0-1)	1
Does a regulator—that is, an entity separate from the utility—monitor the utility's performance on reliability of supply?	Yes
Financial deterrents aimed at limiting outages (0-1)	0
Does the utility either pay compensation to customers or face fines by the regulator (or both) if outages exceed a certain cap?	No
Communication of tariffs and tariff changes (0-1)	1
Are effective tariffs available online?	Yes
Link to the website, if available online	http://www.calculix.lu/web/tk/tk
Are customers notified of a change in tariff ahead of the billing cycle?	Yes

Note:

If the duration and frequency of outages is 100 or less, the economy is eligible to score on the Reliability of supply and transparency of tariff index.

If the duration and frequency of outages is not available, or is over 100, the economy is not eligible to score on the index.

If the minimum outage time considered for SAIDI/SAIFI is over 5 minutes, the economy is not eligible to score on the index.

Registering Property

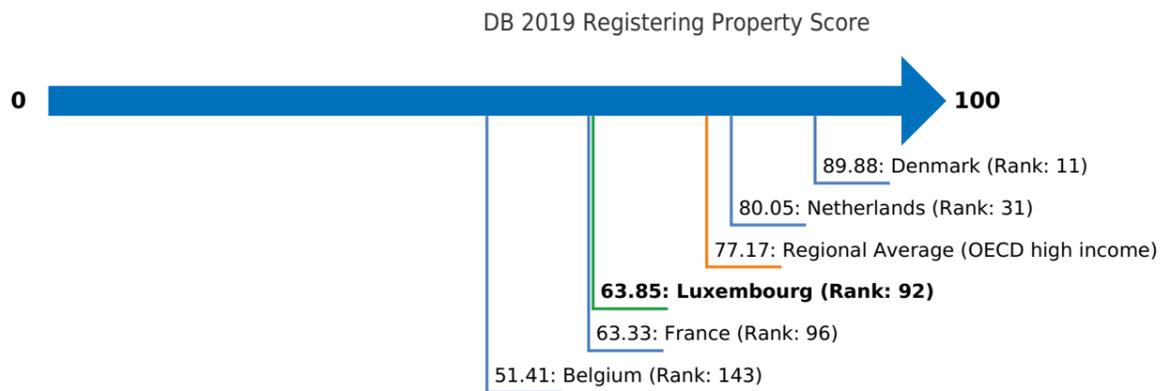

This topic examines the steps, time and cost involved in registering property, assuming a standardized case of an entrepreneur who wants to purchase land and a building that is already registered and free of title dispute. In addition, the topic also measures the quality of the land administration system in each economy. The quality of land administration index has five dimensions: reliability of infrastructure, transparency of information, geographic coverage, land dispute resolution, and equal access to property rights. The most recent round of data collection for the project was completed in May 2018. [See the methodology for more information.](#)

What the indicators measure	Case study assumptions
<p>Procedures to legally transfer title on immovable property (number)</p> <ul style="list-style-type: none"> • Preregistration procedures (for example, checking for liens, notarizing sales agreement, paying property transfer taxes) • Registration procedures in the economy's largest business city. • Postregistration procedures (for example, filling title with municipality) 	<p>To make the data comparable across economies, several assumptions about the parties to the transaction, the property and the procedures are used.</p>
<p>Time required to complete each procedure (calendar days)</p> <ul style="list-style-type: none"> • Does not include time spent gathering information • Each procedure starts on a separate day - though procedures that can be fully completed online are an exception to this rule • Procedure is considered completed once final document is received • No prior contact with officials 	<p>The parties (buyer and seller):</p> <ul style="list-style-type: none"> - Are limited liability companies (or the legal equivalent). - Are located in the periurban area of the economy's largest business city. For 11 economies the data are also collected for the second largest business city. - Are 100% domestically and privately owned. - Have 50 employees each, all of whom are nationals. - Perform general commercial activities.
<p>Cost required to complete each procedure (% of property value)</p> <ul style="list-style-type: none"> • Official costs only (such as administrative fees, duties and taxes). • Value Added Tax, Capital Gains Tax and illicit payments are excluded 	<p>The property (fully owned by the seller):</p> <ul style="list-style-type: none"> - Has a value of 50 times income per capita, which equals the sale price. - Is fully owned by the seller. - Has no mortgages attached and has been under the same ownership for the past 10 years. - Is registered in the land registry or cadastre, or both, and is free of title disputes. - Is located in a periurban commercial zone, and no rezoning is required. - Consists of land and a building. The land area is 557.4 square meters (6,000 square feet). A two-story warehouse of 929 square meters (10,000 square feet) is located on the land. The warehouse is 10 years old, is in good condition, has no heating system and complies with all safety standards, building codes and legal requirements. The property, consisting of land and building, will be transferred in its entirety. - Will not be subject to renovations or additional construction following the purchase. - Has no trees, natural water sources, natural reserves or historical monuments of any kind. - Will not be used for special purposes, and no special permits, such as for residential use, industrial plants, waste storage or certain types of agricultural activities, are required. - Has no occupants, and no other party holds a legal interest in it.
<p>Quality of land administration index (0-30)</p> <ul style="list-style-type: none"> • Reliability of infrastructure index (0-8) • Transparency of information index (0-6) • Geographic coverage index (0-8) • Land dispute resolution index (0-8) • Equal access to property rights index (-2-0)

Details - Registering Property in Luxembourg - Procedure, Time and Cost

No.	Procedures	Time to Complete	Associated Costs
1	<p>Parties visit notary to draft and authenticate the sale agreement (Compromis de Vente) <i>Agency : Civil Law Notary</i> After signing a sale agreement ("compromis de vente") between each other, as per common practice, the parties will visit a Civil Law Notary for the drafting and authentication of the notarial deed. The sale is complete between the parties, and ownership is acquired by the buyer, as soon as the property, and the price have been agreed, although the property has not yet been delivered or the price paid (Article 1583 of the Civil Code). As a sale of real estate must be registered (which triggers the payment of registration taxes) and recorded in the mortgage registry in order to be enforceable vis-à-vis third parties and as only duly certified deeds may be entered in the register, the sale must be recorded in a notarial deed ("acte de vente").</p> <p>The Civil Law Notary is deemed a public official with powers delegated by the State to authenticate the deeds he drafts and provides complete security to the contracts he supervises. The authenticity of the deeds grants the parties an undisputable date and content in Court. The law imposes personal liability on the notary for his professional acts which are more extensive than that of other branches of the legal profession.</p> <p>As of February 2018, there are 36 Civil Law notaries, 18 of those in Luxembourg canton, in the Grand-Duchy of Luxembourg and the sale may be drawn up in front of anyone of them. This study assumes that parties would call on day one and receive an appointment for the same or following day.</p>	2 days	EUR 10; (4 EUR stamp per page of the deed (2-3 pages))
2	<p>Notary conducts full search at property registry <i>Agency : Property registry (Bureau des Hypotheques)</i> The Civil Law Notary may go in person to the Bureau des Hypotheques to request and receive either a 'releve des inscriptions hypothecaires' (containing a list of mortgages), or a 'recherche par case hypothecaire' (containing a list of all land transactions effected by the landowner together with that of every mortgage or charge burdening the property). For each excerpt of the registry EUR 1.24 is payable per property owner and EUR 0.50 per each registered property. If the excerpt includes photocopies, EUR 0.50 is payable per each photocopy. For a closing certificate which confirms that the excerpts are the only existing ones, EUR 1.24 per property-owner is payable. For a negative excerpt (no properties registered) EUR 2.48 is payable per person.</p>	1 day	EUR 2.48; (EUR 2.48 for full search)
⇒ 3	<p>Notary conducts search at the Administration du Cadastre (online) <i>Agency : Administration du Cadastre</i> The Civil Law Notary should also check the status of the property at the cadastre. The notary can equally obtain this information through the cadastre's webpage where all this information is online. Free information is available to the general public on the website http://www.geoportail.lu. Authorized users, such as notaries, have direct access to all information whereas the general public has only limited but adequate access to the land register information.</p>	Less than one day, online	Online consultation is free of charge; 3 EUR per page paper
⇒ 4	<p>Notary notifies tax administration of transfer and obtains tax clearance <i>Agency : Tax Administration office</i> The Civil Law Notary contacts the tax administration office to notify them that the property will be sold. The tax administration office confirms that the property has no claims or unpaid taxes delivering a document called "certificat de non-obligation" . If there are outstanding claims or taxes, the tax administration may register a hidden mortgage ("hypothèque occulte") on the property.</p>	1 day	no charge

5	<p>Buyer sends funds, fees, taxes and anti-money laundering documents to notary</p> <p><i>Agency</i> : Civil Law Notary</p> <p>The buyer will pay the taxes, fees, and funds for the property by wire transfer to the Notary, in addition to notarial fees. Notarial fees are determined by the Regulation of 24 July, 1971 on notary fees. The buyer must also send anti-money laundering documentation to the Civil Law Notary at this time, regarding the origin of the funds he is using. The Civil Law Notary also checks whether the persons signing the authenticated deed have the necessary power of representation.</p>	2 days	EUR 327,305.77; (6% of the market value of property (registration fee) + 3% of the market value of property (municipal surcharge within city of Luxembourg) + 1% market value of property (transcription duty)+ Notary fee schedule according to the official schedule)
6	<p>Parties sign the transfer deed</p> <p><i>Agency</i> : Civil Law Notary</p> <p>The parties return to the Civil Law Notary to sign the transfer deed.</p>	2 days	already paid in Procedure 5
7	<p>Notary registers transfer deed at the Administration de l'Enregistrement et des Domaines</p> <p><i>Agency</i> : Administration de l'Enregistrement et des Domaines</p> <p>The Civil Law Notary registers the transfer deed at the Administration de l'Enregistrement et des Domaines, which charges the transfer duty to the notary. The Administration will record the transfer after two to five days. The Administration will also send the deed to the Administration du Cadastre for registration of the new owner there. It will take the Cadastre about two weeks to record the new owner. At the same time, the Administration will take about two weeks to send a copy of the registered deed, with the stamp of the Administration and a reference number on it, back to the notary. The parties pay the registration, municipal and inscription fees to the Civil Law Notary, who pays the Administration.</p>	18 days	already paid in Procedure 5

→ Takes place simultaneously with previous procedure.

Details - Registering Property in Luxembourg - Measure of Quality

	Answer	Score
Reliability of infrastructure index (0-8)		8.0
What is the institution in charge of immovable property registration?	Property Registry (Bureau des Hypothèques, Administration de l'Enregistrement et des Domaines)	
In what format are the majority of title or deed records kept in the largest business city—in a paper format or in a computerized format (scanned or fully digital)?	Computer/Fully digital	2.0
Is there an electronic database for checking for encumbrances (liens, mortgages, restrictions and the like)?	Yes	1.0
Institution in charge of the plans showing legal boundaries in the largest business city:	Cadastre (Administration du Cadastre et de la Topographie)	
In what format are the majority of maps of land plots kept in the largest business city—in a paper format or in a computerized format (scanned or fully digital)?	Computer/Fully digital	2.0
Is there an electronic database for recording boundaries, checking plans and providing cadastral information (geographic information system)?	Yes	1.0
Is the information recorded by the immovable property registration agency and the cadastral or mapping agency kept in a single database, in different but linked databases or in separate databases?	Different databases but linked	1.0
Do the immovable property registration agency and cadastral or mapping agency use the same identification number for properties?	Yes	1.0
Transparency of information index (0-6)		3.5
Who is able to obtain information on land ownership at the agency in charge of immovable property registration in the largest business city?	Anyone who pays the official fee	1.0
Is the list of documents that are required to complete any type of property transaction made publicly available—and if so, how?	Yes, on public boards	0.5
Link for online access:		
Is the applicable fee schedule for any property transaction at the agency in charge of immovable property registration in the largest business city made publicly available—and if so, how?	Yes, online	0.5
Link for online access:	http://www.aed.public.lu/enregistrement/index.html	
Does the agency in charge of immovable property registration commit to delivering a legally binding document that proves property ownership within a specific time frame—and if so, how does it communicate the service standard?	No	0.0
Link for online access:		
Is there a specific and separate mechanism for filing complaints about a problem that occurred at the agency in charge of immovable property registration?	No	0.0
Contact information:		
Are there publicly available official statistics tracking the number of transactions at the immovable property registration agency?	Yes	0.5
Number of property transfers in the largest business city in 2017:	27462.0	
Who is able to consult maps of land plots in the largest business city?	Freely accessible by anyone	0.5
Is the applicable fee schedule for accessing maps of land plots made publicly available—and if so, how?	Yes, online	0.5

Link for online access:	http://www.geoportal.lu http://legilux.public.lu/eli/etat/leg/rgd/2009/03/09/n6/jo	
Does the cadastral or mapping agency commit to delivering an updated map within a specific time frame—and if so, how does it communicate the service standard?	No	0.0
Link for online access:		
Is there a specific and separate mechanism for filing complaints about a problem that occurred at the cadastral or mapping agency?	No	0.0
Contact information:		
Geographic coverage index (0-8)		8.0
Are all privately held land plots in the economy formally registered at the immovable property registry?	Yes	2.0
Are all privately held land plots in the largest business city formally registered at the immovable property registry?	Yes	2.0
Are all privately held land plots in the economy mapped?	Yes	2.0
Are all privately held land plots in the largest business city mapped?	Yes	2.0
Land dispute resolution index (0-8)		6.0
Does the law require that all property sale transactions be registered at the immovable property registry to make them opposable to third parties?	Yes	1.5
Is the system of immovable property registration subject to a state or private guarantee?	Yes	0.5
Is there a specific compensation mechanism to cover for losses incurred by parties who engaged in good faith in a property transaction based on erroneous information certified by the immovable property registry?	No	0.0
Does the legal system require a control of legality of the documents necessary for a property transaction (e.g., checking the compliance of contracts with requirements of the law)?	Yes	0.5
If yes, who is responsible for checking the legality of the documents?	Notary;	
Does the legal system require verification of the identity of the parties to a property transaction?	Yes	0.5
If yes, who is responsible for verifying the identity of the parties?	Notary;	
Is there a national database to verify the accuracy of identity documents?	Yes	1.0
For a standard land dispute between two local businesses over tenure rights of a property worth 50 times gross national income (GNI) per capita and located in the largest business city, what court would be in charge of the case in the first instance?	Tribunal d'arrondissement (District court)	
How long does it take on average to obtain a decision from the first-instance court for such a case (without appeal)?	Between 1 and 2 years	2.0
Are there any statistics on the number of land disputes in the first instance?	No	0.0
Number of land disputes in the largest business city in 2017:		
Equal access to property rights index (-2-0)		0.0
Do unmarried men and unmarried women have equal ownership rights to property?	Yes	
Do married men and married women have equal ownership rights to property?	Yes	0.0

Getting Credit

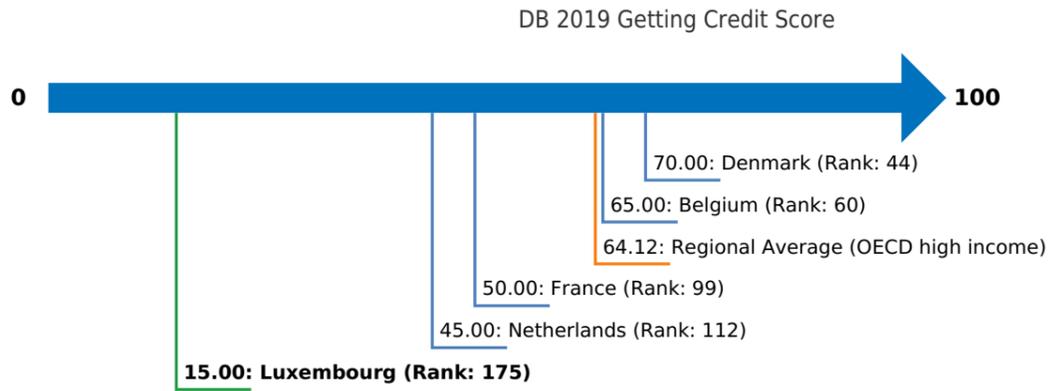

This topic explores two sets of issues—the strength of credit reporting systems and the effectiveness of collateral and bankruptcy laws in facilitating lending. The most recent round of data collection for the project was completed in May 2018. [See the methodology for more information.](#)

What the indicators measure	Case study assumptions
<p>Strength of legal rights index (0-12)</p> <ul style="list-style-type: none"> • Rights of borrowers and lenders through collateral laws (0-10) • Protection of secured creditors' rights through bankruptcy laws (0-2) <p>Depth of credit information index (0-8)</p> <ul style="list-style-type: none"> • Scope and accessibility of credit information distributed by credit bureaus and credit registries (0-8) <p>Credit bureau coverage (% of adults)</p> <ul style="list-style-type: none"> • Number of individuals and firms listed in largest credit bureau as a percentage of adult population <p>Credit registry coverage (% of adults)</p> <ul style="list-style-type: none"> • Number of individuals and firms listed in credit registry as a percentage of adult population 	<p><i>Doing Business</i> assesses the sharing of credit information and the legal rights of borrowers and lenders with respect to secured transactions through 2 sets of indicators. The depth of credit information index measures rules and practices affecting the coverage, scope and accessibility of credit information available through a credit registry or a credit bureau. The strength of legal rights index measures the degree to which collateral and bankruptcy laws protect the rights of borrowers and lenders and thus facilitate lending. For each economy it is first determined whether a unitary secured transactions system exists. Then two case scenarios, case A and case B, are used to determine how a nonpossessory security interest is created, publicized and enforced according to the law. Special emphasis is given to how the collateral registry operates (if registration of security interests is possible). The case scenarios involve a secured borrower, company ABC, and a secured lender, BizBank.</p> <p>In some economies the legal framework for secured transactions will allow only case A or case B (not both) to apply. Both cases examine the same set of legal provisions relating to the use of movable collateral.</p> <p>Several assumptions about the secured borrower (ABC) and lender (BizBank) are used:</p> <ul style="list-style-type: none"> - ABC is a domestic limited liability company (or its legal equivalent). - ABC has up to 50 employees. - ABC has its headquarters and only base of operations in the economy's largest business city. For 11 economies the data are also collected for the second largest business city. - Both ABC and BizBank are 100% domestically owned. <p>The case scenarios also involve assumptions. In case A, as collateral for the loan, ABC grants BizBank a nonpossessory security interest in one category of movable assets, for example, its machinery or its inventory. ABC wants to keep both possession and ownership of the collateral. In economies where the law does not allow nonpossessory security interests in movable property, ABC and BizBank use a fiduciary transfer-of-title arrangement (or a similar substitute for nonpossessory security interests).</p> <p>In case B, ABC grants BizBank a business charge, enterprise charge, floating charge or any charge that gives BizBank a security interest over ABC's combined movable assets (or as much of ABC's movable assets as possible). ABC keeps ownership and possession of the assets.</p>

Getting Credit - Luxembourg

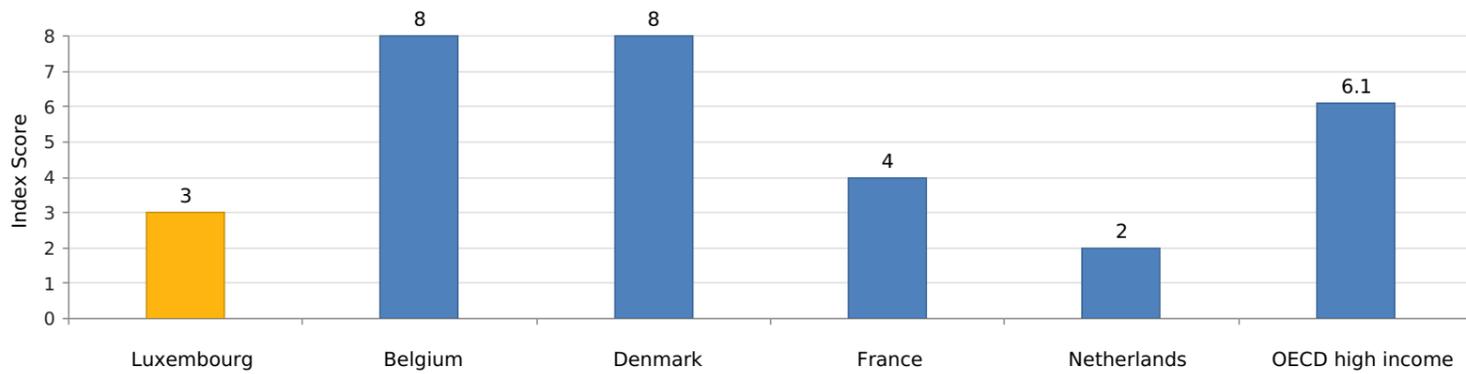

Indicator	Luxembourg	OECD high income	Best Regulatory Performance
Strength of legal rights index (0-12)	3	6.1	12 (5 Economies)
Depth of credit information index (0-8)	0	6.7	8 (42 Economies)
Credit registry coverage (% of adults)	0	21.8	100.0 (4 Economies)
Credit bureau coverage (% of adults)	0	65.3	100.0 (25 Economies)

Does an integrated or unified legal framework for secured transactions that extends to the creation, publicity and enforcement of functional equivalents to security interests in movable assets exist in the economy? No

Does the law allow businesses to grant a non possessory security right in a single category of movable assets, without requiring a specific description of collateral? No

Does the law allow businesses to grant a non possessory security right in substantially all of its assets, without requiring a specific description of collateral? Yes

May a security right extend to future or after-acquired assets, and does it extend automatically to the products, proceeds and replacements of the original assets? No

Is a general description of debts and obligations permitted in collateral agreements; can all types of debts and obligations be secured between parties; and can the collateral agreement include a maximum amount for which the assets are encumbered? Yes

Is a collateral registry in operation for both incorporated and non-incorporated entities, that is unified geographically and by asset type, with an electronic database indexed by debtor's name? No

Does a notice-based collateral registry exist in which all functional equivalents can be registered? No

Does a modern collateral registry exist in which registrations, amendments, cancellations and searches can be performed online by any interested third party? No

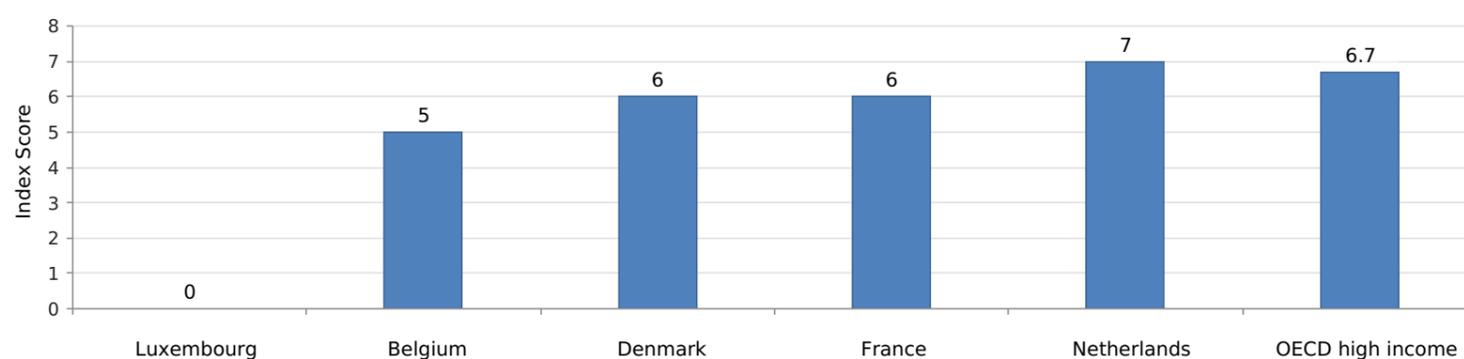

Are secured creditors paid first (i.e. before tax claims and employee claims) when a debtor defaults outside an insolvency procedure? Yes

Are secured creditors paid first (i.e. before tax claims and employee claims) when a business is liquidated? No

Are secured creditors subject to an automatic stay on enforcement when a debtor enters a court-supervised reorganization procedure? Does the law protect secured creditors' rights by providing clear grounds for relief from the stay and sets a time limit for it? No

Does the law allow parties to agree on out of court enforcement at the time a security interest is created? Does the law allow the secured creditor to sell the collateral through public auction or private tender, as well as, for the secured creditor to keep the asset in satisfaction of the debt? No

Must Mr. James disclose his conflict of interest to the board of directors? (0-2)	Existence of a conflict without any specifics	1.0
Must Buyer disclose the transaction in periodic filings (e.g. annual reports)? (0-2)	Disclosure on the transaction only	1.0
Must Buyer immediately disclose the transaction to the public? (0-2)	Disclosure on the transaction and on the conflict of interest	2.0
Extent of director liability index (0-10)		5.0
Can shareholders representing 10% of Buyer's share capital sue for the damage the transaction caused to Buyer? (0-1)	Yes	1.0
Can shareholders hold Mr. James liable for the damage the transaction caused to Buyer? (0-2)	Liable if negligent	1.0
Can shareholders hold the other directors liable for the damage the transaction caused to Buyer (0-2)	Liable if negligent	1.0
Must Mr. James pay damages for the harm caused to Buyer upon a successful claim by shareholders? (0-1)	Yes	1.0
Must Mr. James repay profits made from the transaction upon a successful claim by shareholders? (0-1)	No	0.0
Is Mr. James disqualified upon a successful claim by shareholders? (0-1)	Yes	1.0
Can a court void the transaction upon a successful claim by shareholders? (0-2)	Only in case of fraud or bad faith	0.0
Ease of shareholder suits index (0-10)		4.0
Before suing, can shareholders representing 10% of Buyer's share capital inspect the transaction documents? (0-1)	Yes	1.0
Can the plaintiff obtain any documents from the defendant and witnesses at trial? (0-3)	Any relevant document	3.0
Can the plaintiff request categories of documents from the defendant without identifying specific ones? (0-1)	No	0.0
Can the plaintiff directly question the defendant and witnesses at trial? (0-2)	No	0.0
Is the level of proof required for civil suits lower than that of criminal cases? (0-1)	No	0.0
Can shareholder plaintiffs recover their legal expenses from the company? (0-2)	At the discretion of the court	0.0
Extent of shareholder governance index (0-10)		4.7
Extent of shareholder rights index (0-10)		5.0
Does the sale of 51% of Buyer's assets require shareholder approval?	No	0.0
Can shareholders representing 10% of Buyer's share capital call for a meeting of shareholders?	Yes	1.0
Must Buyer obtain its shareholders' approval every time it issues new shares?	No	0.0

Do shareholders automatically receive preemption rights every time Buyer issues new shares?	Yes	1.0
Must shareholders approve the election and dismissal of the external auditor?	Yes	1.0
Are changes to the rights of a class of shares only possible if the holders of the affected shares approve?	Yes	1.0
Assuming that Buyer is a limited company, does the sale of 51% of its assets require member approval?	No	0.0
Assuming that Buyer is a limited company, can members representing 10% call for a meeting of members?	No	0.0
Assuming that Buyer is a limited company, must all or almost all members consent to add a new member?	No	0.0
Assuming that Buyer is a limited company, must a member first offer to sell their interest to the existing members before they can sell to non-members?	Yes	1.0
Extent of ownership and control index (0-10)		2.0
Is it forbidden to appoint the same individual as CEO and chairperson of the board of directors?	No	0.0
Must the board of directors include independent and nonexecutive board members?	No	0.0
Can shareholders remove members of the board of directors without cause before the end of their term?	Yes	1.0
Must the board of directors include a separate audit committee exclusively comprising board members?	No	0.0
Must a potential acquirer make a tender offer to all shareholders upon acquiring 50% of Buyer?	Yes	1.0
Must Buyer pay declared dividends within a maximum period set by law?	No	0.0
Is a subsidiary prohibited from acquiring shares issued by its parent company?	No	0.0
Assuming that Buyer is a limited company, must Buyer have a mechanism to resolve disagreements among members?	No	0.0
Assuming that Buyer is a limited company, must a potential acquirer make a tender offer to all shareholders upon acquiring 50% of Buyer?	No	0.0
Assuming that Buyer is a limited company, must Buyer distribute profits within a maximum period set by law?	No	0.0
Extent of corporate transparency index (0-10)		7.0
Must Buyer disclose direct and indirect beneficial ownership stakes representing 5%?	Yes	1.0
Must Buyer disclose information about board members' primary employment and directorships in other companies?	Yes	1.0
Must Buyer disclose the compensation of individual managers?	No	0.0
Must a detailed notice of general meeting be sent 21 days before the meeting?	Yes	1.0
Can shareholders representing 5% of Buyer's share capital put items on the general meeting agenda?	Yes	1.0
Must Buyer's annual financial statements be audited by an external auditor?	Yes	1.0
Must Buyer disclose its audit reports to the public?	Yes	1.0
Assuming that Buyer is a limited company, must members meet at least once a year?	No	0.0
Assuming that Buyer is a limited company, can members representing 5% put items on the meeting agenda?	No	0.0
Assuming that Buyer is a limited company, must Buyer's annual financial statements be audited by an external auditor?	Yes	1.0

Paying Taxes

This topic records the taxes and mandatory contributions that a medium-size company must pay or withhold in a given year, as well as the administrative burden of paying taxes and contributions and complying with postfiling procedures (VAT refund and tax audit). The most recent round of data collection for the project was completed in May 2018 covering for the Paying Taxes indicator calendar year 2017 (January 1, 2017 – December 31, 2017). [See the methodology for more information.](#)

What the indicators measure

Tax payments for a manufacturing company in 2017 (number per year adjusted for electronic and joint filing and payment)

- Total number of taxes and contributions paid or withheld, including consumption taxes (value added tax, sales tax or goods and service tax)
- Method and frequency of filing and payment

Time required to comply with 3 major taxes (hours per year)

- Collecting information, computing tax payable
- Preparing separate tax accounting books, if required
- Completing tax return, filing with agencies
- Arranging payment or withholding

Total tax and contribution rate (% of commercial profits)

- Profit or corporate income tax
- Social contributions, labor taxes paid by employer
- Property and property transfer taxes
- Dividend, capital gains, financial transactions taxes
- Waste collection, vehicle, road and other taxes

Postfiling Index

- Time to comply with a VAT refund (hours)
- Time to obtain a VAT refund (weeks)
- Time to comply with a corporate income tax correction (hours)
- Time to complete a corporate income tax correction (weeks)

Case study assumptions

Using a case scenario, *Doing Business* records taxes and mandatory contributions a medium size company must pay in a year, and measures the administrative burden of paying taxes, contributions and dealing with postfiling processes. Information is also compiled on frequency of filing and payments, time taken to comply with tax laws, time taken to comply with the requirements of postfiling processes and time waiting.

To make data comparable across economies, several assumptions are used:

- TaxpayerCo is a medium-size business that started operations on January 1, 2016. It produces ceramic flowerpots and sells them at retail. All taxes and contributions recorded are paid in the second year of operation (calendar year 2017). Taxes and mandatory contributions are measured at all levels of government.

The VAT refund process:

- In June 2017, TaxpayerCo. makes a large capital purchase: the value of the machine is 65 times income per capita of the economy. Sales are equally spread per month (1,050 times income per capita divided by 12) and cost of goods sold are equally expensed per month (875 times income per capita divided by 12). The machinery seller is registered for VAT and excess input VAT incurred in June will be fully recovered after four consecutive months if the VAT rate is the same for inputs, sales and the machine and the tax reporting period is every month. Input VAT will exceed Output VAT in June 2017.

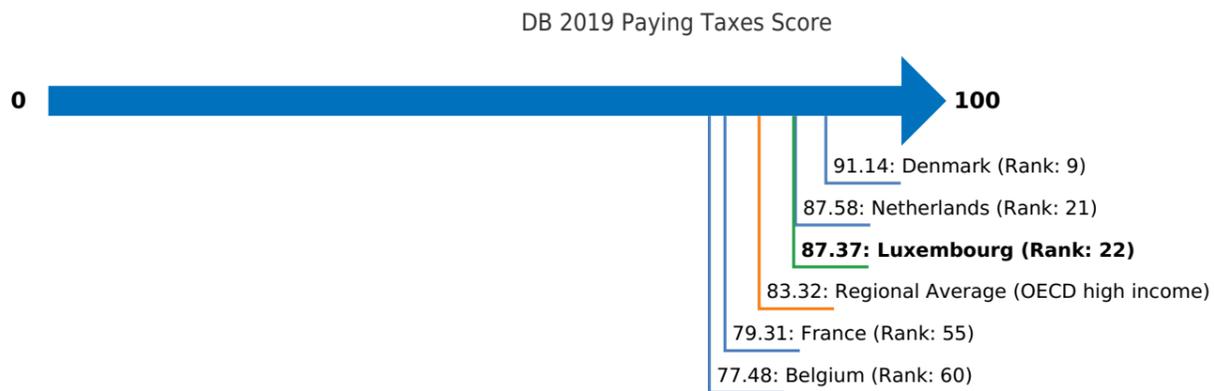

The corporate income tax audit process:

- An error in calculation of income tax liability (for example, use of incorrect tax depreciation rates, or incorrectly treating an expense as tax deductible) leads to an incorrect income tax return and a corporate income tax underpayment. TaxpayerCo. discovered the error and voluntarily notified the tax authority. The value of the underpaid income tax liability is 5% of the corporate income tax liability due. TaxpayerCo. submits corrected information after the deadline for submitting the annual tax return, but within the tax assessment period.

Paying Taxes - Luxembourg

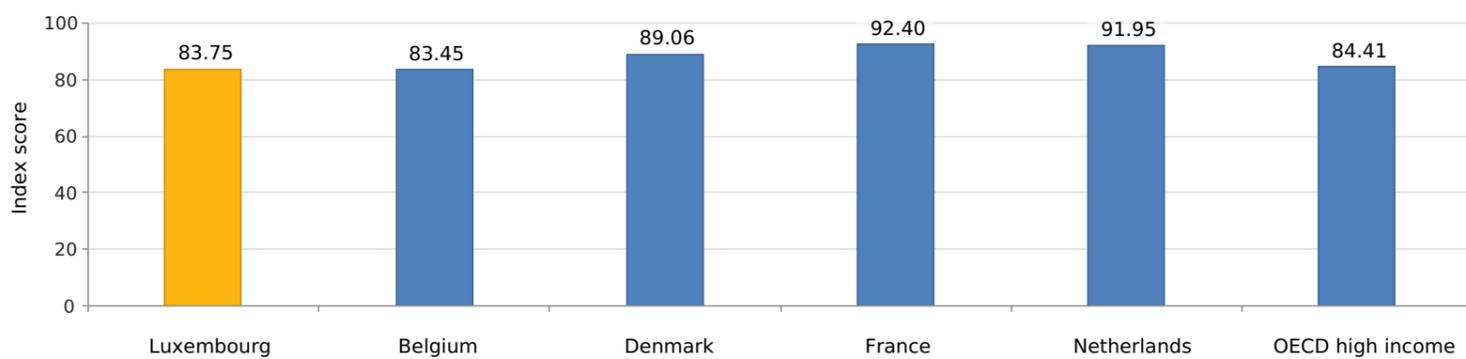

Indicator	Luxembourg	OECD high income	Best Regulatory Performance
Payments (number per year)	23	11.2	3 (Hong Kong SAR, China)
Time (hours per year)	55	159.4	49 (Singapore)
Total tax and contribution rate (% of profit)	20.5	39.8	26.1% (32 Economies)
Postfiling index (0-100)	83.75	84.41	None in 2017/18

Figure - Paying Taxes in Luxembourg and comparator economies - Ranking and Score

Note: The ranking of economies on the ease of paying taxes is determined by sorting their scores for paying taxes. These scores are the simple average of the scores for each of the component indicators, with a threshold and a nonlinear transformation applied to one of the component indicators, the total tax and contribution rate. The threshold is defined as the total tax and contribution rate at the 15th percentile of the overall distribution for all years included in the analysis up to and including Doing Business 2015, which is 26.1%. All economies with a total tax and contribution rate below this threshold receive the same score as the economy at the threshold.

Other taxes (% of profit)	0.8

Details - Paying Taxes in Luxembourg - Measure of Quality

	Answer	Score
Postfiling index (0-100)		83.75
VAT refunds		
Does VAT exist?	Yes	
Does a VAT refund process exist per the case study?	Yes	
Restrictions on VAT refund process	None	
Percentage of cases exposed to a VAT audit (%)	50% - 74%	
Is there a mandatory carry forward period?	No	
Time to comply with VAT refund (hours)	11.5	77
Time to obtain a VAT refund (weeks)	15.2	76.9
Corporate income tax audits		
Does corporate income tax exist?	Yes	
Percentage of cases exposed to a corporate income tax audit (%)	0% - 24%	
Time to comply with a corporate income tax correction (hours)	4.5	94.5
Time to complete a corporate income tax correction (weeks)	4.3	86.61

Notes: Names of taxes have been standardized. For instance income tax, profit tax, tax on company's income are all named corporate income tax in this table.

The hours for VAT include all the VAT and sales taxes applicable.

The hours for Social Security include all the hours for labor taxes and mandatory contributions in general.

The postfiling index is the average of the scores on time to comply with VAT refund, time to obtain a VAT refund, time to comply with a corporate income tax correction and time to complete a corporate income tax correction.

N/A = Not applicable.

Trading across Borders

Doing Business records the time and cost associated with the logistical process of exporting and importing goods. *Doing Business* measures the time and cost (excluding tariffs) associated with three sets of procedures—documentary compliance, border compliance and domestic transport—within the overall process of exporting or importing a shipment of goods. The most recent round of data collection for the project was completed in May 2018. [See the methodology for more information.](#)

What the indicators measure

Documentary compliance

- Obtaining, preparing and submitting documents during transport, clearance, inspections and port or border handling in origin economy
- Obtaining, preparing and submitting documents required by destination economy and any transit economies
- Covers all documents required by law and in practice, including electronic submissions of information

Border compliance

- Customs clearance and inspections
- Inspections by other agencies (if applied to more than 20% of shipments)
- Handling and inspections that take place at the economy's port or border

Domestic transport

- Loading or unloading of the shipment at the warehouse or port/border
- Transport between warehouse and port/border
- Traffic delays and road police checks while shipment is en route

Case study assumptions

To make the data comparable across economies, a few assumptions are made about the traded goods and the transactions:

Time: Time is measured in hours, and 1 day is 24 hours (for example, 22 days are recorded as $22 \times 24 = 528$ hours). If customs clearance takes 7.5 hours, the data are recorded as is. Alternatively, suppose documents are submitted to a customs agency at 8:00a.m., are processed overnight and can be picked up at 8:00a.m. the next day. The time for customs clearance would be recorded as 24 hours because the actual procedure took 24 hours.

Cost: Insurance cost and informal payments for which no receipt is issued are excluded from the costs recorded. Costs are reported in U.S. dollars. Contributors are asked to convert local currency into U.S. dollars based on the exchange rate prevailing on the day they answer the questionnaire. Contributors are private sector experts in international trade logistics and are informed about exchange rates.

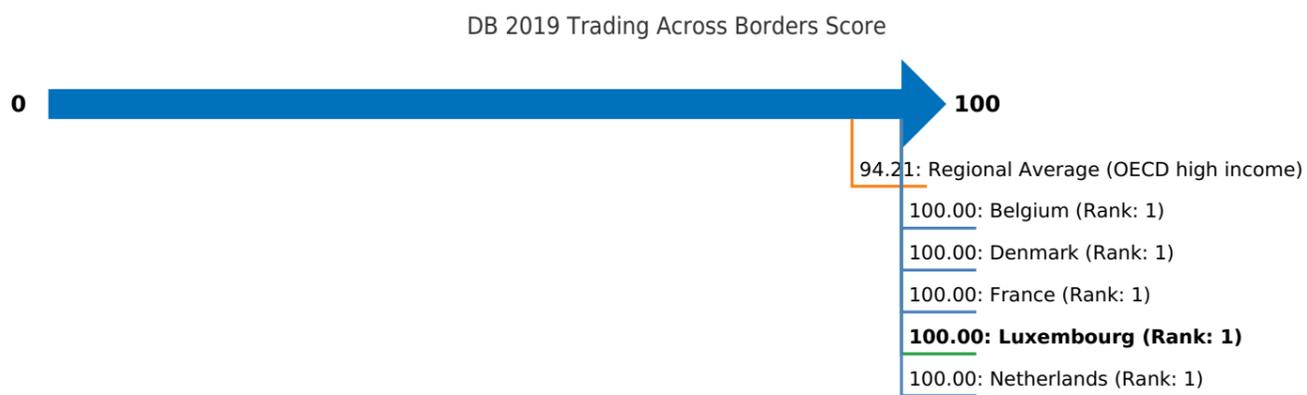

Assumptions of the case study:

- For all 190 economies covered by *Doing Business*, it is assumed a shipment is in a warehouse in the largest business city of the exporting economy and travels to a warehouse in the largest business city of the importing economy.
- It is assumed each economy imports 15 metric tons of containerized auto parts (HS 8708) from its natural import partner—the economy from which it imports the largest value (price times quantity) of auto parts. It is assumed each economy exports the product of its comparative advantage (defined by the largest export value) to its natural export partner—the economy that is the largest purchaser of this product. Shipment value is assumed to be \$50,000.
- The mode of transport is the one most widely used for the chosen export or import product and the trading partner, as is the seaport or land border crossing.
- All electronic information submissions requested by any government agency in connection with the shipment are considered to be documents obtained, prepared and submitted during the export or import process.
- A port or border is a place (seaport or land border crossing) where merchandise can enter or leave an economy.
- Relevant government agencies include customs, port authorities, road police, border guards, standardization agencies, ministries or departments of agriculture or industry, national security agencies and any other government authorities.

Trading across Borders - Luxembourg

Enforcing Contracts

The enforcing contracts indicator measures the time and cost for resolving a commercial dispute through a local first-instance court, and the quality of judicial processes index, evaluating whether each economy has adopted a series of good practices that promote quality and efficiency in the court system. The most recent round of data collection was completed in May 2018. [See the methodology for more information.](#)

What the indicators measure	Case study assumptions
<p>Time required to enforce a contract through the courts (calendar days)</p> <ul style="list-style-type: none"> • Time to file and serve the case • Time for trial and to obtain the judgment • Time to enforce the judgment <p>Cost required to enforce a contract through the courts (% of claim)</p> <ul style="list-style-type: none"> • Attorney fees • Court fees • Enforcement fees <p>Quality of judicial processes index (0-18)</p> <ul style="list-style-type: none"> • Court structure and proceedings (-1-5) • Case management (0-6) • Court automation (0-4) • Alternative dispute resolution (0-3) 	<p>The dispute in the case study involves the breach of a sales contract between 2 domestic businesses. The case study assumes that the court hears an expert on the quality of the goods in dispute. This distinguishes the case from simple debt enforcement.</p> <p>To make the data comparable across economies, <i>Doing Business</i> uses several assumptions about the case:</p> <ul style="list-style-type: none"> - The dispute concerns a lawful transaction between two businesses (Seller and Buyer), both located in the economy's largest business city. For 11 economies the data are also collected for the second largest business city. - The buyer orders custom-made goods, then fails to pay alleging that the goods are not of adequate quality. - The value of the dispute is 200% of the income per capita or the equivalent in local currency of USD 5,000, whichever is greater. - The seller sues the buyer before the court with jurisdiction over commercial cases worth 200% of income per capita or \$5,000. - The seller requests the pretrial attachment of the defendant's movable assets to secure the claim. - The dispute on the quality of the goods requires an expert opinion. - The judge decides in favor of the seller; there is no appeal. - The seller enforces the judgment through a public sale of the buyer's movable assets.

	Answer	Score
Quality of judicial processes index (0-18)		8.5
Court structure and proceedings (-1-5)		4.5
1. Is there a court or division of a court dedicated solely to hearing commercial cases?	Yes	1.5
2. Small claims court		1.5
2.a. Is there a small claims court or a fast-track procedure for small claims?	Yes	
2.b. If yes, is self-representation allowed?	Yes	
3. Is pretrial attachment available?	Yes	1.0
4. Are new cases assigned randomly to judges?	Yes, but manual	0.5
5. Does a woman's testimony carry the same evidentiary weight in court as a man's?	Yes	0.0
Case management (0-6)		1.0
1. Time standards		0.0
1.a. Are there laws setting overall time standards for key court events in a civil case?	No	
1.b. If yes, are the time standards set for at least three court events?	n.a.	
1.c. Are these time standards respected in more than 50% of cases?	n.a.	
2. Adjournments		0.0
2.a. Does the law regulate the maximum number of adjournments that can be granted?	No	
2.b. Are adjournments limited to unforeseen and exceptional circumstances?	No	
2.c. If rules on adjournments exist, are they respected in more than 50% of cases?	n.a.	
3. Can two of the following four reports be generated about the competent court: (i) time to disposition report; (ii) clearance rate report; (iii) age of pending cases report; and (iv) single case progress report?	Yes	1.0
4. Is a pretrial conference among the case management techniques used before the competent court?	No	0.0
5. Are there any electronic case management tools in place within the competent court for use by judges?	No	0.0
6. Are there any electronic case management tools in place within the competent court for use by lawyers?	No	0.0
Court automation (0-4)		0.5
1. Can the initial complaint be filed electronically through a dedicated platform within the competent court?	no	0.0
2. Is it possible to carry out service of process electronically for claims filed before the competent court?	No	0.0
3. Can court fees be paid electronically within the competent court?	No	0.0
4. Publication of judgments		0.5
4.a. Are judgments rendered in commercial cases at all levels made available to the general public through publication in official gazettes, in newspapers or on the internet or court website?	No	
4.b. Are judgments rendered in commercial cases at the appellate and supreme court level made available to the general public through publication in official gazettes, in newspapers or on the internet or court website?	Yes	
Alternative dispute resolution (0-3)		2.5
1. Arbitration		1.5

1.a. Is domestic commercial arbitration governed by a consolidated law or consolidated chapter or section of the applicable code of civil procedure encompassing substantially all its aspects?	Yes	
1.b. Are there any commercial disputes—aside from those that deal with public order or public policy—that cannot be submitted to arbitration?	No	
1.c. Are valid arbitration clauses or agreements usually enforced by the courts?	Yes	
2. Mediation/Conciliation		1.0
2.a. Is voluntary mediation or conciliation available?	Yes	
2.b. Are mediation, conciliation or both governed by a consolidated law or consolidated chapter or section of the applicable code of civil procedure encompassing substantially all their aspects?	Yes	
2.c. Are there financial incentives for parties to attempt mediation or conciliation (i.e., if mediation or conciliation is successful, a refund of court filing fees, income tax credits or the like)?	No	

Resolving Insolvency

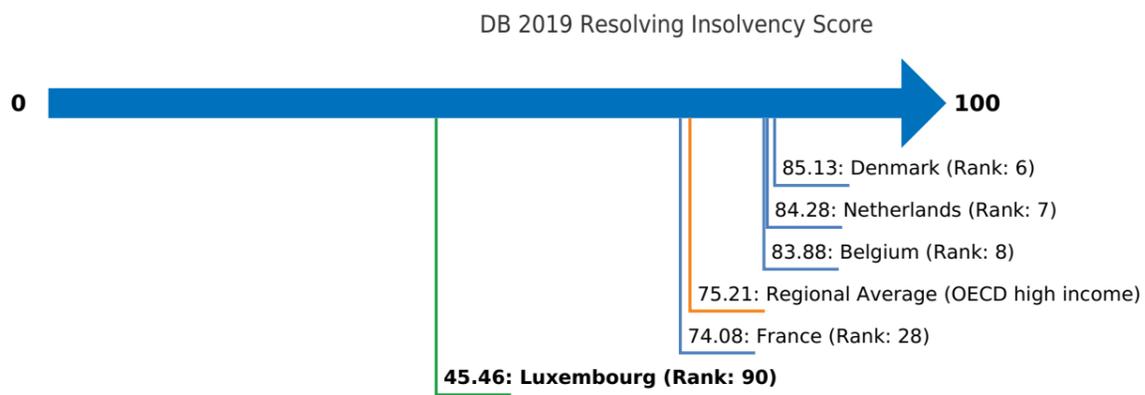

Doing Business studies the time, cost and outcome of insolvency proceedings involving domestic legal entities. These variables are used to calculate the recovery rate, which is recorded as cents on the dollar recovered by secured creditors through reorganization, liquidation or debt enforcement (foreclosure or receivership) proceedings. To determine the present value of the amount recovered by creditors, *Doing Business* uses the lending rates from the International Monetary Fund, supplemented with data from central banks and the Economist Intelligence Unit. The most recent round of data collection was completed in May 2018. [See the methodology for more information.](#)

What the indicators measure	Case study assumptions
<p>Time required to recover debt (years)</p> <ul style="list-style-type: none"> • Measured in calendar years • Appeals and requests for extension are included 	<p>To make the data on the time, cost and outcome comparable across economies, several assumptions about the business and the case are used:</p>
<p>Cost required to recover debt (% of debtor's estate)</p> <ul style="list-style-type: none"> • Measured as percentage of estate value • Court fees • Fees of insolvency administrators • Lawyers' fees • Assessors' and auctioneers' fees • Other related fees 	<ul style="list-style-type: none"> - A hotel located in the largest city (or cities) has 201 employees and 50 suppliers. The hotel experiences financial difficulties. - The value of the hotel is 100% of the income per capita or the equivalent in local currency of USD 200,000, whichever is greater. - The hotel has a loan from a domestic bank, secured by a mortgage over the hotel's real estate. The hotel cannot pay back the loan, but makes enough money to operate otherwise.
<p>Outcome</p> <ul style="list-style-type: none"> • Whether business continues operating as a going concern or business assets are sold piecemeal 	<p>In addition, <i>Doing Business</i> evaluates the quality of legal framework applicable to judicial liquidation and reorganization proceedings and the extent to which best insolvency practices have been implemented in each economy covered.</p>
<p>Recovery rate for creditors</p> <ul style="list-style-type: none"> • Measures the cents on the dollar recovered by secured creditors • Outcome for the business (survival or not) determines the maximum value that can be recovered • Official costs of the insolvency proceedings are deducted • Depreciation of furniture is taken into account • Present value of debt recovered 	
<p>Strength of insolvency framework index (0- 16)</p> <ul style="list-style-type: none"> • Sum of the scores of four component indices: • Commencement of proceedings index (0-3) • Management of debtor's assets index (0-6) • Reorganization proceedings index (0-3) • Creditor participation index (0-4)

Details - Resolving Insolvency in Luxembourg

Indicator	Answer	Score
Proceeding	liquidation (after an attempt at reorganization)	As Mirage' management wants to keep the company operating, it will likely request the controlled management procedure governed by the Grand-Ducal decree of May 24, 1935. In controlled management proceedings, both secured and unsecured creditors would be precluded from enforcing their rights. After an administrator appointed by the court makes an assessment of the company's financials, it will propose reorganization or a liquidation plan, which must be approved by the creditors. If the plan is not approved, the court will declare Mirage bankrupt and bankruptcy proceedings will commence.
Outcome	piecemeal sale	During a bankruptcy procedure, the operations would as a matter of principle stop and, at the end of the proceedings, the company is likely to be liquidated and its assets sold piecemeal. Few companies continue operating after completion of the bankruptcy proceedings.
Time (in years)	2.0	Mirage's management will file an application for controlled management procedure, supported by a list of creditors. The court will hold a hearing and one of the judges from the section on commercial matters will be appointed to report on the financial situation of the company. This can be done with the assistance of an expert. When the report is finalized, the court will decide whether to accept or reject the application for controlled judicial management. If the application is accepted, one or more administrators will be appointed by the court. The administrator will take inventory of the assets and assess the financial situation of the company. After that, the administrator will prepare a reorganization or liquidation plan. The plan will be forwarded to the creditors, who have to inform the court within 2 weeks whether they approve or reject the plan. If the plan is rejected, the court will declare the debtor bankrupt. The bankruptcy judgment will be published in two local newspapers and individual notice will be given to known creditors. A receiver will be appointed. Creditors must file their claims within allocated time (usually 15-20 days), if the receiver disputes any of the claims, they will be litigated in court. After all claims have been confirmed, the receiver must convene a meeting of the creditors and present his report on the bankruptcy. The assets can only be sold with court's authorization. A secured creditor may acquire the assets from the estate and set-off its claim.
Cost (% of estate)	14.5	Major expenses will include attorneys' fees (up to 10%) and remuneration of the administrator and receiver (up to 5%).
Recovery rate (cents on the dollar)		43.8

Details - Resolving Insolvency in Luxembourg - Measure of Quality

	Answer	Score

Does the insolvency framework allow avoidance of undervalued transactions?	Yes	1.0
Does the insolvency framework provide for the possibility of the debtor obtaining credit after commencement of insolvency proceedings?	Yes	1.0
Does the insolvency framework assign priority to post-commencement credit?	(c) No priority is assigned to post-commencement creditors	0.0
Reorganization proceedings index (0-3)		0.5
Which creditors vote on the proposed reorganization plan?	(a) All creditors	0.5
Does the insolvency framework require that dissenting creditors in reorganization receive at least as much as what they would obtain in a liquidation?	No	0.0
Are the creditors divided into classes for the purposes of voting on the reorganization plan, does each class vote separately and are creditors in the same class treated equally?	No	0.0
Creditor participation index (0-4)		1.0
Does the insolvency framework require approval by the creditors for selection or appointment of the insolvency representative?	No	0.0
Does the insolvency framework require approval by the creditors for sale of substantial assets of the debtor?	No	0.0
Does the insolvency framework provide that a creditor has the right to request information from the insolvency representative?	No	0.0
Does the insolvency framework provide that a creditor has the right to object to decisions accepting or rejecting creditors' claims?	Yes	1.0

Note: Even if the economy's legal framework includes provisions related to insolvency proceedings (liquidation or reorganization), the economy receives 0 points for the strength of insolvency framework index, if time, cost and outcome indicators are recorded as "no practice."

Labor Market Regulation

Doing Business presents detailed data for the labor market regulation indicators on the *Doing Business* website (<http://www.doingbusiness.org>). The report does not present rankings of economies on these indicators or include the topic in the aggregate ease of doing business score or ranking on the ease of doing business.

The most recent round of data collection was completed in May 2018. [See the methodology for more information.](#)

What the indicators measure

Hiring

(i) whether fixed-term contracts are prohibited for permanent tasks; (ii) maximum cumulative duration of fixed-term contracts; (iii) length of the probationary period; (iv) minimum wage.

Working hours

(i) maximum number of working days allowed per week; (ii) premiums for work: at night, on a weekly rest day and overtime; (iii) whether there are restrictions on work at night, work on a weekly rest day and for overtime work; (iv) whether nonpregnant and nonnursing women can work same night hours as men; (v) length of paid annual leave.

Redundancy rules

(i) whether redundancy can be basis for terminating workers; (ii) whether employer needs to notify and/or get approval from third party to terminate 1 redundant worker and a group of 9 redundant workers; (iii) whether law requires employer to reassign or retrain a worker before making worker redundant; (iv) whether priority rules apply for redundancies and reemployment.

Redundancy cost

(i) notice period for redundancy dismissal; (ii) severance payments due when terminating a redundant worker.

Job quality

(i) whether law mandates equal remuneration for work of equal value and nondiscrimination based on gender in hiring; (ii) whether law mandates paid or unpaid maternity leave; (iii) length of paid maternity leave; (iv) whether employees on maternity leave receive 100% of wages; (v) availability of five fully paid days of sick leave a year; (vi) eligibility requirements for unemployment protection.

Case study assumptions

To make the data comparable across economies, several assumptions about the worker and the business are used.

The worker:

- Is a cashier in a supermarket or grocery store, age 19, with one year of work experience.
- Is a full-time employee.
- Is not a member of the labor union, unless membership is mandatory.

The business:

- Is a limited liability company (or the equivalent in the economy).
- Operates a supermarket or grocery store in the economy's largest business city. For 11 economies the data are also collected for the second largest business city.
- Has 60 employees.
- Is subject to collective bargaining agreements if such agreements cover more than 50% of the food retail sector and they apply even to firms that are not party to them.
- Abides by every law and regulation but does not grant workers more benefits than those mandated by law, regulation or (if applicable) collective bargaining agreements.

Labor Market Regulation - Luxembourg

Details - Labor Market Regulation in Luxembourg

	Answer
Hiring	
Fixed-term contracts prohibited for permanent tasks?	Yes
Maximum length of a single fixed-term contract (months)	24.0

Business Reforms in Luxembourg

In the past year, *Doing Business* observed a peaking of reform activity worldwide. From June 2, 2017, to May 1, 2018, 128 economies implemented a record 314 regulatory reforms improving the business climate. Reforms inspired by *Doing Business* have been implemented by economies in all regions. The following are reforms implemented since *Doing Business* 2008.

✓ = *Doing Business* reform making it easier to do business. ✗ = Change making it more difficult to do business.

DB2019

Labor Market Regulation: Luxembourg increased post-natal maternity leave, amended statutory provisions for leave for personal reasons and family leave, introduced state co-financing of professional trainings and amended pre-retirement rules.

DB2018

✓ **Protecting Minority Investors:** Luxembourg strengthened minority investor protections by making it easier to sue directors in case of prejudicial related-party transactions and increasing access to corporate information.

DB2011

✓ **Starting a Business:** Luxembourg eased business start-up by speeding up the delivery of the business license.

DB2010

✓ **Starting a Business:** Luxembourg made starting a business easier by allowing entrepreneurs to reserve a company name online and by eliminating the capital duty.

Labor Market Regulation: Luxembourg increased the severance payments applicable in redundancy dismissals.

Doing Business 2019 is the 16th in a series of annual reports investigating the regulations that enhance business activity and those that constrain it. The report provides quantitative indicators covering 11 areas of the business environment in 190 economies. The goal of the *Doing Business* series is to provide objective data for use by governments in designing sound business regulatory policies and to encourage research on the important dimensions of the regulatory environment for firms.
